

What is CAQH?

The CAQH (Council for Affordable Quality Healthcare) offers a single credentialing application and an online data base that contains information necessary for insurance companies to credential a provider. This allows providers to submit and maintain their credentialing information at one location rather than filing with many organizations. There is no cost to file an application with CAQH and it can be completed online.

How to Enroll Through CAQH**Option 1 – I already have an application on file with CAQH**

- You must give CAQH authorization to release your information to DentaQuest
- Fill out the chart below with your CAQH ID and fax to 262-241-7401

Option 2 – I want to complete an online CAQH application

- Complete and fax back the information in the below chart to 262-241-7401 (You do not need to fill-in the CAQH ID Yet).
- Once DentaQuest has this information, CAQH will send you a Welcome packet with a CAQH ID. You may then complete the online CAQH application by logging onto <https://upd.caqh.org.oas> using your CAQH ID.
