What is *Smiles For Children*?

*Smiles For Children* is Virginia’s dental program for Medicaid, FAMIS, or FAMIS Plus. Members enrolled in *Smiles For Children*, 20 years of age and younger, receive comprehensive dental benefits. Medically appropriate dental benefits are provided to adult pregnant women enrolled in Medicaid and FAMIS MOMS. Limited dental benefits are provided for Medicaid members over age 21.

There are no costs for dental care services in the *Smiles For Children* program. *Smiles For Children* is a program provided by the Commonwealth of Virginia’s Department of Medical Assistance Services (DMAS) and is run by DentaQuest.

### Enrollment

Once Medicaid, FAMIS or FAMIS Plus eligibility has been determined enrollment in the program is automatic. You do not need to do anything special to enroll in the program.

There is no special *Smiles For Children* dental card. You may use either the Commonwealth of Virginia plastic ID card or Managed Care Organization (MCO) member ID card (Aetna, Anthem HealthKeepers Plus, Magellan, Optima Family Care, United Healthcare or Virginia Premier Health Plan) for all dental care.

You may have additional dental benefits through your MCO. Contact them for more information.

*Smiles For Children* will only pay for dental services while the member is enrolled in Medicaid.

**REMEMBER, IT IS VERY IMPORTANT** to tell your local Department of Social Services right away if you move, change your address or to report any change that affects Medicaid eligibility. If they do not have a correct address then you will not receive up to date information about dental coverage and eligibility will be canceled.

If Medicaid, FAMIS or FAMIS Plus enrollment ends, you will receive a letter indicating that your benefits have ended. The program will not pay for any dental services after the end date on the letter. You will have to pay for any services received after the end date on the letter.
Services Covered by Smiles For Children

Services for Children

There are no costs for your child’s covered dental care services in the Smiles For Children program.

Smiles For Children members under age 21 are covered for all medically necessary dental services, as well as orthodontic (braces) procedures provided by a participating dentist. Dental services include relief of pain and infection, restoration of teeth, and maintenance of dental health. An oral screening may be part of a physical exam your child gets from the doctor, but it does not take the place of the exam by the dentist. Medicaid recommends that your child’s doctor refer your child to a dentist beginning at age one and sooner if necessary.

Routine exams are visits to the dentist for a dental “check-up”. The dentist will look in your child’s mouth to see if other dental services are needed and will check to be sure that your child’s teeth, gums and the bones supporting the teeth are healthy. Sometimes, the dentist will clean your child’s teeth and take x-rays if needed at the same time as the check-up. Dental check-ups are an important part of your child’s overall health, and should be done every six months.

Some of the other services that are available to your child include:

- Fluoride (every 6 months)
- Sealants
- Cleanings (every 6 months)
- Space maintainers
- Extractions (tooth pulling)
- Anesthesia
- Crowns (some caps)
- Braces (if qualified)
- Root Canal Treatments
- X-rays
- Fillings
- Oral Disease Services

Your child’s dentist will tell you whether or not a service is going to be paid by Smiles For Children before they treat your child. Participating dentists cannot bill you for services covered under the program, as long as your child remains eligible.

If your child receives services from a dentist who is not enrolled in Smiles For Children, you will have to pay the bill. Try to use a Dental Home dentist for most of your child’s dental care. A Dental Home is a dentist your child sees regularly every six months. Your Dental Home dentist can refer your child to a specialist.

Adults (members age 21 and over) who are not currently pregnant

Smiles For Children does not pay for dental services for members 21 years of age and older except for certain medically necessary oral surgery services when performed by a participating dentist. Examples of medically related covered services for adults include:

- Oral surgery is covered for non-dental surgical or hospital procedures for birth defects (like cleft lip and cleft palate),
- Removal of cysts and tumors not related to the teeth,
- Extraction of teeth for severe abscesses complicating a medical condition or contributing to poor general health,
- Biopsies for suspected malignancies,
- Repair of traumatic wounds, and items and services connected with the care, treatment, filling, removal, replacement of teeth, or structures directly supporting the teeth are not covered, except for extraction of teeth prior to radiation therapy

Most dental services for members 21 years and older must be authorized prior to receiving the service or before the payment can be made.

If you need dental services due to one of these conditions, please contact the Smiles For Children program at 1-888-912-3456. They will help you find a dentist who will do an exam and x-rays. The dentist will let you know what steps you need to take to fix the problem and receive the care you need.

Pregnant Members

Pregnant women who are 21 years old and older in Medicaid, FAMIS or FAMIS MOMS can get dental benefits. These dental benefits will be available through the Smiles For Children program. Benefits include cleanings, exams, fillings, crowns, root canals, x-rays, and anesthesia are also covered. Braces are not covered. These benefits will stop at the end of the month following the 60th day after you have had the baby.

Pregnant members who are under 21 years old can get Smiles For Children dental program. Braces are included.

Transportation Services

Depending on the Medicaid benefit plan in which you are enrolled with Non-Emergency Medical Transportation (NEMT) may be available for dental appointments. Please call the Reservation line for the Medicaid benefit plan for which you are enrolled with to discuss transportation options. The telephone number for MCO members is listed on the back of your MCO plan Medical Card. As a reminder, you must call at least 5 business days before the appointment to get transportation. If your situation is urgent because of pain or dental injury, an effort will be made to arrange transportation on shorter notice.
The telephone numbers can be found at: http://www.dmas.virginia.gov/#/nemtservices – please click on “Transportation Contacts”

If you have questions please call the Smiles For Children Member Services help line at (888) 912-3456.

Your Dental Home
As a Smiles For Children member you should have a Dental Home. A dental home is the dentist office you see regularly every six months. This dentist will provide care and always be available.

Your Dental Home will work with you or your child to stay healthy. It is important to go back to the same Dental Home for each appointment.

Your Dental Home Will Provide:
• Complete dental care
• A dental health plan designed for you or your child
• Guidance about growth and diet
• Teach good oral health care

Healthy teeth and gums are an important part of overall health. For a longer healthier life have regular checkups every six months. Children should see the dentist starting at age one. So don’t wait! Call your Dental Home and make an appointment today.

If you have questions about your Dental Home or benefits call toll free 1-888-912-3456 or visit our website at www.DentaQuest.com.

Remember: Once you choose a Dental Home it is important to keep all your appointments and always arrive on time.

How to Find a Dentist
For additional information on which dentists or dental specialists you can go to, please contact the Smiles For Children program at 1-888-912-3456. They can help find the closest dentist that participates in the program. They will even help you make an appointment with a dentist.

When you call the Smiles For Children program, you should have these items ready:
• Pen or Pencil
• Your address including zip code
• The Commonwealth of Virginia blue and white plastic ID Card or your child's MCO member ID card

Tell them that you or your child is a Smiles For Children member. You will receive the names of several dentists in your area.

How to Find a Dentist Using Our Website
Members should only visit dental providers enrolled in the Smiles For Children program. The names of all dentists and dental specialists in the Smiles For Children program are available online at https://govservices.dentaquest.com/Router.jsp?component=Main&source=Logon&action=ProviderDirectory2&state=VA&locale=en

Then follow directions for one of the options below.
1. You may choose to do a quick search by zip code by entering the state you live in, your zip code and the program you are a member of in the top box labeled “Your Information”. This will produce a list of all dentists participating in your program that are accepting new patients within 30 miles based on zip code and criteria chosen. If you would like a list of only general dentists please choose that option under provider specialty.
2. Or you may choose to do a detailed search by entering the state you live in, your zip code and the program you are a member of in the top box labeled “Your Information”. You may then choose other options such as special needs, handicapped accessible, accepting new patients, provider specialty and office language spoken.

Making Dental Appointments
When you call the dentist to make an appointment, you should have these items ready:
• Pen or pencil
• Your child’s Commonwealth of Virginia blue and white plastic ID or
• Your child’s MCO member ID card
• A calendar

Tell the dentist’s office that you or your child is a Smiles For Children member and that you would like to make an appointment to see the dentist. See which dates and times work best for you. Write down the appointment date and time on your calendar.

When the date of the appointment comes, just go to the dentist’s office. It is that easy. If you have been going to a different dentist, please ask the old dentist to send the dental records to the new dentist.

It is very important to make sure that you go to your scheduled appointments. If you are not able to keep the appointment, call the dentist office as soon as possible to let them know you will not be coming. At that time, the dentist can schedule another appointment for you to make sure that you or your children are getting the proper
dental care. Dentists may no longer want to see you or your children in their office if you miss your appointment.

**Broken appointments are no laughing matter!**

Show the blue and white ID card or your MCO ID card each time you go to the dentist so that your dentist can verify eligibility status. If you do not take the cards, you can be billed.

**It is your responsibility to show the Identification Card to providers at the time you go for services and to be sure the provider accepts payment from Smiles For Children.** Report the loss or theft of your Medicaid Identification Card to the local Department of Social Services, the FAMIS CPU or loss of your MCO card to your Managed Care Organization (MCO) right away.

**What to Do in an Emergency**

Your child can also see a Smiles For Children dentist for emergencies. You should ask your dentist how to contact him or her in an emergency. Your dentist may have a different telephone number to call in an emergency.

If you are away from home during an emergency, you may contact DentaQuest for help finding a participating dentist in the area. If you are not able to call DentaQuest, take your child to the hospital, if necessary. Remember to show the Member ID Card.

Helpful Dental Tips
• Practice good dental health habits. Brush twice a day and floss once a day.
• Take your child to the dentist for a check-up every six months starting at age one.

• Never allow your child to fall asleep with a bottle of milk, formula, fruit juice, or sweetened drinks.
