Endnotes to 2026 Dental Standard Benefit Plan Designs

Pediatric Dental EHB Notes (only applicable to the pediatric portion of the Family Dental Plan)

- 1) Cost sharing payments made by each individual child for in-network covered services accrue to the child's out-of-pocket maximum. Once the child's individual out-of-pocket maximum has been reached, the plan pays all costs for covered services for that child.
- 2) In a plan with two or more children, cost sharing payments made by each individual child for in-network services contribute to the family in-network deductible, if applicable, as well as the family out-of-pocket maximum.
- 3) In a plan with two or more children, cost sharing payments made by each individual child for out-of-network covered services contribute to the family out-of-network deductible, if applicable, and do not accumulate to the family out-of-pocket maximum.
- 4) Administration of these plan designs must comply with requirements of the pediatric dental EHB benchmark plan, including coverage of services in circumstances of medical necessity as defined in the Early Periodic Screening, Diagnosis and Treatment (EPSDT) benefit.
- 5) Member cost share for Medically Necessary Orthodontia services applies to course of treatment, not individual benefit years within a multi-year course of treatment. This member cost share applies to the course of treatment as long as the member remains enrolled in the plan.
- 6) To the extent the dental plans can offer Teledentistry, it would be offered at no charge.
- 7) These Endnotes do not limit an issuer's obligations to comply with applicable Federal, State, or local laws, rules, or regulations. In the event an issuer is subject to a newly enacted or amended law, rule, or regulation that conflicts

with the requirements of these Endnotes, an issuer shall comply with the law, rule, or regulation and any applicable guidance from its regulatory authority. Where these Endnotes exceed requirements imposed by law, an issuer shall comply with the requirements in these Endnotes.

Adult Dental Benefit Notes (only applicable to the Family Dental Plan)

- 8) Tooth whitening, adult orthodontia, implants, veneers, and adult services noted as Not Covered on the Copayment Schedule are not covered services.
- 9) The six month waiting period for major services must be waived upon a member's provision of proof of prior comparable dental coverage. This waiting period shall be prorated on a one to one monthly basis upon a member's provision of proof of prior comparable dental coverage of less than six months. Covered California leaves it to the plan to determine acceptable documentation to verify prior proof of coverage. Covered California leaves it to the plan to determine the maximum allowable gap in coverage before proration of the six month waiting period would no longer occur. Dental services obtained via a discount health plan are not considered "comparable" dental coverage for purposes of counting towards the waiting period.
- 10) To the extent the dental plans can offer Teledentistry, it would be offered at no charge.
- 11) These Endnotes do not limit an issuer's obligations to comply with applicable Federal, State, or local laws, rules, or regulations. In the event an issuer is subject to a newly enacted or amended law, rule, or regulation that conflicts with the requirements of these Endnotes, an issuer shall comply with the law, rule, or regulation and any applicable guidance from its regulatory authority. Where these Endnotes exceed requirements imposed by law, an issuer shall comply with the requirements in these Endnotes.

After the pediatric age enrollee reaches their OOPM, they will have no further copayments for benefits for the remainder of the plan year. If more than one pediatric age enrollee (meaning multiple children in one family) is covered under the contract, the financial obligation for benefits is not more than the OOPM for multiple children. You must report this event within 60 days of the event to Covered California through their web portal at www.coveredca.com for consideration of a sixty (60) day special enrollment period. In the case of birth, adoption or placement for adoption, you have sixty (60) days to report the event to Covered California through the web portal. The effective date for dependents acquired through marriage will be effective the first day of the next month following your plan selection submitted to Covered California regardless of when during the month you make your plan selection. If enrollment is not completed according to the rules established by Covered California, the new dependent will be effective according to the open enrollment rules established by Covered California.

Subscribers and eligible Dependents must either live or work within the DentaQuest approved service area in order to be eligible for Benefits hereunder. When payment and application are received and approved by the 20th of the month, eligibility will commence on the first of the following month.

IV. ELIGIBLE DEPENDENTS

A Member's eligible Dependents are their lawful spouse and Dependent children. An eligible dependent shall include a) any child born out of wedlock, b) a child not claimed as a dependent on the parents' federal income tax return and c) a child who does not reside with the parent or within the Plan's service area. All newborn infants' Coverage shall commence from and after the moment of birth. Adopted children and stepchildren shall be covered from and after the date of placement. California has legalized registered domestic partnerships for same-sex and opposite-sex couples. In order for two individuals to be considered domestic partners in California, they must be in an intimate, committed relationship and file a Declaration of Domestic Partnership with the California Secretary of State. When the declaration is filed, the following requirements must also be fulfilled:

- Each individual is at least 18 years of age, unless consent is given from the minor's parent or guardian;
- Neither individual is related by blood in any way that would prevent marriage in the state;
- Neither individual is married, or in another domestic partnership with another individual;
- Both individuals are of the same sex or, if the individuals are of the opposite-sex, at least one person is over 62 years of age; and
- Both individuals are capable of consenting to a domestic partnership.

Dependents shall also include all children under the age of 26 years. An enrolled Dependent Child who reaches age 26 during a benefit year may remain enrolled as a dependent until the end of that benefit year. The dependent coverage shall end on the last day of the benefit year during which the Dependent child becomes ineligible.

Coverage shall not terminate at age 26 while a Dependent child is and continues to be both:

- Incapable of self-sustaining employment by reason of mental retardation or physical handicap; and
- Chiefly dependent upon the subscriber for support and maintenance provided the subscriber furnishes proof of such incapacity and dependency to DentaQuest within 31 days of the child attaining the limiting age set forth above, and every two years thereafter, if requested by DentaQuest.

In a case where a parent is required by a court or administrative order to provide coverage for a child the Plan shall not disenroll or eliminate coverage unless a) the employer has eliminated coverage for all employees, b) the Plan is provided with satisfactory written evidence that either the court order or administrative order is no longer in effect, or c) the child is or will be enrolled in another or comparable plan that will take effect no later than the effective date of the child's disenrollment.

All family members MUST use the same office and the Plan subscriber must live or work within DentaQuest's service area within California. Any such change will become effective on the first day of the month following DentaQuest's approval if request is received by DentaQuest by the 20th of the month. DentaQuest may require up to 30 days to process any such request. All Member fees and Copayments must be paid in full prior to such a transfer.

In consideration of the performance by the Participating Dentist of services made available and/or rendered to Members pursuant to this Individual Subscriber Agreement, Combined Evidence of Coverage and Disclosure Form and the schedule of Principal Benefits and Coverage, the compensation to the Participating Dentist shall be:

- The copayments paid directly to the DentaQuest Participating Dentist by the Member as set forth in this Individual Subscriber Agreement, Combined Evidence of Coverage and Disclosure form, and/or

DentaQuest does not have, in any contract and/or agreement with a Participating Dentist or other licensed health care professional, any such compensation agreement term that includes a specific payment or compensation made directly, in any type or form, as an inducement to deny, reduce, limit or delay, any specific, medically necessary, or appropriate services.

VI. SECOND OPINION POLICY

It is the policy of DentaQuest that a second opinion obtained from a participating panel provider will be a covered benefit. The covered benefit will need an approval from the Plan. A second opinion is encouraged as a positive component of quality of care.

General Practice Second Opinion

A request for a second opinion may be processed if one or more of the following conditions are evident:

- Member wishes affirmation of a complex or extensive treatment plan, alternative treatment plan, or clarification of a treatment plan or procedure.
- Member has a question about correctness of a diagnosis of a procedure or treatment plan.
- Member questions progress and successful outcome of a treatment plan.
- Plan requires a second opinion as part of the resolution of a Member's grievance.

When a Member has a request for a second opinion that does not fall within the description outlines, the request will be forwarded to a DentaQuest Dental Director for consideration.

Members may obtain a second opinion by contacting DentaQuest at 1-855-425-4164. The Member will be given the names of providers in their area to select a second opinion provider. If the Member opts not to accept one of the contracted providers and wishes to go out of the network, it is not a covered benefit. The provider of choice will be notified by the Plan of the Member's need for a second opinion and the applicable co-payment. The Member will be responsible for obtaining an appointment from the second opinion provider.

The Plan representative will complete a second opinion form. X-rays and records from the current provider will be obtained, and along with the form, be sent to the second opinion provider.

Contracting providers have agreed in their contract to participate in the Quality Assurance activities of the Plan. The provision of a second opinion is considered to be part of the Plan's Quality Assurance Activities; therefore, all contracting providers agree to:

- Provide copies of necessary records and radiographs to the Plan (at no charge to the Members, Plan or second opinion provider) for review by the second opinion provider.
- To agree to provide second opinion evaluation to Members at copayment upon approval of the second opinion request by the Plan, and to make the results of their evaluation available to the referring provider, the Member, and the Plan.

Second opinion providers may elect to accept a Member seeking a transfer but are not obligated to do so. Transfers must be mutually agreed to the second opinion provider and the Member seeking the second opinion.

Specialty Second Opinion

Specialty procedures incorporated in a treatment plan may require a specialty second opinion. These would be processed in the same manner as a general practice second opinion with the same guidelines.

Orthodontic Second Opinion

In the case of an Orthodontic second opinion, it will be processed the same as a general except, the following conditions must be evident:

- Questions about extractions of teeth to effect completion of treatment versus non-extraction of teeth.
- Questions on length of time of treatment.
- Questions about facial changes, growth and development.
- Questions about initiation of treatment, interceptive treatment, removable versus fixed therapy.
- Questions about multiple providers treating case vs. one provider reporting outcomes.

When a Member has a request for a second opinion that does not fall within the description outlines, the request will be forwarded to the Dental Director for consideration.

Denials

Conditions under which a second opinion may be denied:

- Member is not eligible or the Plan has been terminated.
- Member has completed treatment. Any second thoughts at this point are deemed a grievance.
- Member has consented to treatment. Dissatisfaction with the provider due to attitude or other personality discomforts (other than treatment plan).
- Treatment plan has been accepted by patient, treatment in progress and patient is not fulfilling agreements financially, appointments, follow-up, home care, etc.

Emergency Second Opinion

When a Member's condition is such that the Member faces imminent and serious threat to his or her health (including, but not limited to, potential loss of life, limb, or other body function), the request for a second opinion will be authorized within 72 hours of the Plan's receipt of the request, whenever possible.

VII. FACILITIES

DentaQuest's participating dental offices are open during normal business hours and some offices are open limited Saturday hours. Please remember; if you cannot keep your scheduled appointment, you must notify

your dental office at least 24 hours in advance or you may be responsible for a broken appointment fee (please refer to your Benefit Schedule).

VIII. PREPAYMENT FEE

Subscribers agree that DentaQuest shall provide services set forth in this Individual Subscriber Agreement, Combined Evidence of Coverage and Disclosure Form at the rates specified in the Enrollment Application and the Benefit Schedule upon payment of the monthly or annual Prepayment Fee. The Prepayment Fee shall be sent to DentaQuest.

IX. LIABILITY OF MEMBER FOR PAYMENT

By statute, every contract between DentaQuest and a Participating Dentist shall provide that in the event that DentaQuest fails to pay the Participating Dentist, the Member shall not be liable to the Participating Dentist for any sums owed by DentaQuest.

In the event that DentaQuest does not pay non-contracting Participating Dentists, the Member may be liable to the non-contracting Participating Dentist for costs of services rendered.

Members will be responsible for all supplementary charges, including copayments, deductibles and procedures not covered as Plan Benefits.

IMPORTANT: If you opt to receive dental services that are not covered services under this Plan, a participating dental Participating Dentist may charge you his or her usual and customary rate for those services. Prior to providing a patient with dental services that are not a covered benefit, the dentist should provide the patient with a treatment plan that includes each anticipated service. If you would like more information about dental coverage options, you may call member services at 1-855-425-4164 or your insurance broker. To fully understand your coverage, you may wish to carefully review this evidence of coverage document.

X. COORDINATION OF BENEFITS

In the event a member is covered under another plan or policy which provides coverage, benefits or services (plan) that are covered benefits under this dental plan, then the benefits of this plan shall be coordinated with the other plan according to regulations on "Coordination of Benefits". Covered California's standard benefit design requires that stand alone dental plans offering the pediatric dental essential health benefit, such as this DentaQuest plan, whether as a separate benefit or combined with a family dental benefit, cover benefits as a secondary dental benefit plan payer. This means that the primary dental benefit payer is a health plan purchased through Covered California which includes pediatric dental essential health benefits.

Your primary dental benefit plan will pay the maximum amount required by its plan contract with you when your primary dental benefit plan is coordinating its benefits with DentaQuest. This means that DentaQuest will pay the lesser of either the amount that it would have paid in the absence of any other dental benefit coverage when a primary dental benefits plan is coordinating benefits with your DentaQuest plan, or your total out-of-pocket cost payable under the primary dental benefit plan for benefits covered under your DentaQuest plan.

These regulations determine which plan is primary and which is secondary under various circumstances. Generally, they result in a group plan being primary over an individual plan and that a plan covering the member

as a subscriber is primary over a plan covering the member as a dependent. Typically, Coordination of Benefits will result in the following:

If the other coverage is a group indemnity plan:

- If the group indemnity coverage is primary, the provider will usually bill the carrier for their Usual and Customary Fees, and the member will be charged the copayment under the secondary plan less the amount received from the primary coverage.
- If the group indemnity coverage is secondary, the provider will bill the carrier for the amount of copayments under the primary plan, and the member will be responsible for the copayments under the primary plan less the amount paid by the secondary carrier.

If the other coverage is a prepaid plan:

- If the provider participates in both plans, the member should be charged the lower copayment(s) of the two plans.
- If the provider does not participate in both plans, the plan that the provider participates in will be primary, and the other plan will typically deny coverage because the member received services from a non-participating provider.

Members may not receive benefits for more than their out of pocket costs for the services provided as a result of Coordination of Benefits.

A copy of the Coordination of Benefits regulations may be obtained from DentaQuest.

This individual plan is secondary to all other group coverage the member may have.

The Plan and/or its treating providers reserve the right to recover the cost or value, as set forth in Section 3040 of the Civil Code, of covered services provided to a Member that resulted from or were caused by third parties who are subsequently determined to be responsible for the injury to the Member.

XI. OUT-OF-POCKET MAXIMUM (OOPM)

Out-of-Pocket Maximum (OOPM) is the maximum amount of money that a pediatric age (child up to age 19) enrollee must pay for benefits during a plan year before their plan benefits are paid in full. Out-of-Pocket Maximum applies only to the Essential Health Benefits for pediatric enrollees (children up to age 19). Copayments for covered services that pediatric enrollees (children up to age 19) received from a participating dentist accumulate through the plan year toward the Out-of-Pocket Maximum. Please consult the included Member Copayment Schedule for complete information on covered services. OOPM never includes premium, prescriptions, or dental care the dental plan doesn't cover. After the pediatric age enrollee reaches their OOPM, they will have no further copayments for benefits for the remainder of the plan year.

If more than one pediatric age enrollee (meaning multiple children up to age 19 in one family) are covered under the contract, the financial obligation for benefits is not more than the OOPM for multiple children. This means that a family of two or more children is subject to the Family OOPM. Once the amount paid by all pediatric age enrollees equals the Family OOPM no further copayments will be required by any of the pediatric age enrollees for the remainder of the plan year.

DentaQuest monitors out-of-pocket payments over the course of the plan year. DentaQuest will provide the pediatric enrollee with their balance accrued toward their annual deductible and annual OOPM for every month

in which benefits were used and until the annual balance equals the full OOPM amount. Pediatric enrollees may request their most up-to-date accrual balance toward their annual OOPM from us at any time. When those payments reach the Out-of-Pocket Maximum for a member's plan, we will send a letter to both the member and the member's selected Participating Dentist to ensure that they are not responsible for copayments for future services.

Accrual updates shall be mailed to enrollees unless the enrollee has elected to opt out of mailed notice and elected to receive the accrual update electronically, or unless the enrollee has previously opted out of mailed notices.

- Enrollees who have opted out of receiving mailed notice may opt back in at any time.
- Accrual updates may be included with evidence of benefit statements.

DentaQuest subscribers and enrollees may request confidential communication by direct mail or through electronic communication.

Mail requests to:

DentaQuest, Inc
23291 Mill Creek Drive, Suite 100
Laguna Hills, CA 92653

or Phone:

Email to: membership@caldental.net

California law states that you can ask for confidential communications regarding the receipt of sensitive services. These types of services can include:

- Bills and attempts to collect payment
- A Notice of Adverse Benefit Determination(s)
- An Explanation of Benefit notice(s)
- A Plan's request for additional information regarding a claim
- A notice of a contested claim
- The name and address of a provider, description of services received, and other information related to a visit
- Any verbal, written or electronic communications from the Plan that contain protected health information

DentaQuest encourages members to retain receipts for all of the services received that are covered under the DentaQuest plan through the plan year to track out-of-pocket expenses. Members should always ask their Participating Dentist for an itemized receipt of services provided during their visit.

XII. EMERGENCY AND URGENT DENTAL CARE

Emergency and urgent dental care is covered 24 hours a day, seven days a week, for all Members. Emergency dental Care is recognized as dental treatment for the immediate relief of an emergency medical condition and covers only those dental services required to alleviate symptoms of such conditions. Urgent care is care required within 24 to 72 hours, and are services needed to prevent the serious deterioration of your dental

health resulting from an unforeseen illness or injury for which treatment cannot be delayed. The Plan provides coverage for urgent dental services only if the services are required to alleviate symptoms such as severe pain or bleeding or if a member reasonably believes that the condition, if not diagnosed or treated, may lead to disability, impairment, or dysfunction. The covered benefits is the relief of acute symptoms only (for example: severe pain or bleeding) and does not include completed restoration. Please contact your Participating Dentist for emergency or urgent dental care. If your Dental Provider is not available during normal business hours, call Dental Customer Support at 1-855-425-4164.

In the case of an after-hours emergency, and your selected dental provider is unavailable, you may obtain emergency or urgent service from any licensed dentist. You need only submit to DentaQuest, at the address listed herein, the bill incurred as a result of the dental emergency, evidence of payment and a brief explanation of the unavailability of your Provider. A non-covered parent of a covered child may submit a claim for emergency or urgent care without the approval of the covered parent, in such case the non-covered parent will be reimbursed. Upon verification of your Provider's unavailability, DentaQuest will reimburse you for the cost of emergency or urgent services, less any applicable copayment.

Enrollees are encouraged to use appropriately the "911" emergency response system, in areas where the system is established and operating, when you have an emergency medical condition that requires an emergency response.

XIII. REIMBURSEMENT PROVISION FOR OUT-OF-AREA CARE

You are covered for emergency and urgent dental care. If you are away from your assigned participating provider, you may contact DentaQuest for referral to another contracted dentist that can treat your urgent or emergency condition. If you are out of the area, it is after DentaQuest's normal business hours, or you cannot contact DentaQuest to redirect you to another contracted dentist, contact any licensed dentist to receive emergency or urgent care. You are required to submit a detailed statement from the treating dentist with a list of all the services provided. Emergency dental care is recognized as dental treatment for the immediate relief of an emergency medical condition and covers only those dental services required to alleviate symptoms of such conditions. Urgent care is treatment required within 24 to 72 hours, and are services needed to prevent the serious deterioration of your dental health resulting from an unforeseen illness or injury for which treatment cannot be delayed. The Plan provides coverage for emergency or urgent dental services only if the services are required to alleviate symptoms such as severe pain or bleeding, or if a member reasonably believes that the condition, if not diagnosed or treated, may lead to disability, impairment, or dysfunction. The covered benefit is the relief of acute symptoms only, (for example: severe pain or bleeding) and does not include completed restoration. Submit all claims for reimbursement to DentaQuest at the address listed herein.

XIV. SPECIALIST REFERRALS

If your Participating Dentist decides that you need the services of a specialist, they will request Prior Authorization for a referral to a DentaQuest Specialist. DentaQuest will send you a letter of treatment authorization, including the name, address, and phone number of your assigned DentaQuest specialist. Routine Prior Authorization requests will be processed within five (5) business days from receipt of all information reasonably necessary and requested by DentaQuest to make the determination. If an emergency referral is required, your Primary Dentist will contact DentaQuest and prompt arrangements will be made for specialty treatment. Emergency referrals are processed within seventy-two (72) hours from receipt of all information reasonably necessary and requested by DentaQuest to make the determination. Your Primary Dentist will be informed of DentaQuest's decision within 24 hours of the determination. Both the general provider and the patient will be notified in writing of approval or denial. If you have questions about how a certain service is approved, call DentaQuest toll-free at 1-855-425-4164. If you are hearing and speech impaired, dial 711 for the California Relay Service. We will be happy to send you a general explanation of how that type of decision is made or send you a general explanation of the overall approval process if you request it.

If you request services from any specialist without prior written approval, you will be responsible for payment.

XV. CONTINUATION OF COVERAGE ACUTE CONDITION OR SERIOUS CHRONIC CONDITION

At the request of the enrollee, the Plan will, under certain circumstances, arrange for continuation of covered services rendered by a terminated Participating Dentist to an enrollee who is undergoing a course of treatment from a terminated Participating Dentist for an acute condition or serious chronic condition. In the event the enrollee and the terminated Participating Dentist qualify, completion of covered services for a serious chronic condition will be provided for a period of time necessary to complete a course of treatment and to arrange for a safe transfer to another provider, as determined by the Plan in consultation with the enrollee and the terminated provider or nonparticipating provider and consistent with good professional practice. For acute conditions, completion of covered services will be provided for the duration of the acute condition.

The payment of copayments, deductibles, or other cost sharing components by the enrollee during the period of continuation of care with a terminated Participating Dentist shall be the same copayments, deductibles, or other cost sharing components that would be paid by the enrollee when receiving care from a Participating Dentist currently contracted with or employed by the Plan. The Plan will not cover services or provide benefits that are not otherwise covered under the terms and condition of the Plan contract.

For the purpose of this section:

"Terminated Participating Dentist" means a Participating Dentist whose contract to provide services to Plan enrollees is terminated or not renewed by the plan or one of the plan's contracting Participating Dentist groups. A terminated Participating Dentist is not a Participating Dentist who voluntarily leaves the plan or contracted Participating Dentist group.

"Acute Condition" means a medical condition that involves a sudden onset of symptoms due to an illness, injury, or medical problem that requires prompt medical attention and that has a limited duration.

“Serious Chronic Condition” means a medical condition due to a disease, illness, or other medical problem or medical disorder that is serious in nature, and that does either of the following:

- (a) Persists without full cure or worsens over an extended period of time.
- (b) Requires ongoing treatment to maintain remission or prevent deterioration.

To request consideration of the continuance of services from a terminated Participating Dentist because you have an acute or serious chronic condition, call or write the Plan.

Non-urgent (routine) appointments are available within 36 business days of the request for appointment. Preventive dental care appointments are available within 40 business days of the request for appointment. DentaQuest network providers are required to employ an answering service or a telephone answering machine during nonbusiness hours, that provides instructions regarding how a member may obtain urgent or emergency care. The instructions must include, if applicable, how to contact another provider who has agreed to be on call to triage or screen by phone, or if needed, deliver urgent or emergency care.

Interpretation services are available to members at all points of contact, including when a member is accompanied by a family member or friend who can provide interpretation services, at no cost to the member. To arrange for interpreter services at your dental appointment or other point of contact please contact the DentaQuest member services department.

Members will receive a written response within 30 days as to the disposition of the complaint, or measures taken to correct any problems. Such written response to a grievance will provide subscribers and enrollees with a clear and concise explanation of the reasons for the Plan's response. For grievances involving the delay, denial, or modification of health care services, the Plan response shall describe the criteria used and the clinical reasons for its decision, including all criteria and clinical reasons related to medical necessity. The response will include an application for independent medical review and instructions, including the Department of Managed Health Care's toll-free telephone number for further information and an envelope addressed to the Department of Managed Health Care, HMO Help Center, 980 Ninth Street, 5th Floor, Sacramento, CA 95814. If the Plan, or one of its contracting Participating Dentists, issues a decision delaying, denying, or modifying health care services based in whole or in part on a finding that the proposed health care services are not a covered benefit under the contract that applies to the Member, the decision shall clearly specify the provisions in the contract that exclude that coverage. Members who are not satisfied with the Plan's response to the Grievance have the right to file a complaint with the California Department of Managed Healthcare.

If the complaint or grievance requires an immediate review for an urgent or emergency quality of care issue, as defined in the Emergency Referral section of the Quality Assurance Program, including severe pain, as determined by the Plan's Dental Director, or involves the cancellation, rescission, or termination of a member, the time period for Plan action as set forth above shall not apply. In such cases, the complaint or grievance will be handled by the Plan within three business days, and the Plan Member will be notified of the result immediately thereafter. Members and the Department of Managed Health Care will be provided with the status as quickly as possible and, in the case of written statement, within three days of receipt of the grievance.

Cancellation, rescission, or nonrenewal grievances submitted to the Department would be treated as an urgent grievance.

The California Department of Managed Health Care is responsible for regulating health care service plans. If you have a grievance against your health plan, you should first telephone your health plan at **(1-855-425-4164)** and use your health plan's grievance process before contacting the department.

Utilizing this grievance procedure does not prohibit any potential legal rights or remedies that may be available to you. If you need help with a grievance involving an emergency, a grievance that has not been satisfactorily resolved by your health plan, or a grievance that has remained unresolved for more than 30 days, you may call the department for assistance. You may also be eligible for an Independent Medical Review (IMR). If you are eligible for IMR, the IMR process will provide an impartial review of medical decisions made by a health plan related to the medical necessity of a proposed service or treatment, coverage decisions for treatments that are experimental or investigational in nature and payment disputes for emergency or urgent medical services. The department also has a toll-free telephone number (1-888-466-2219) and a TDD line (1-877-688-9891) for the hearing and speech impaired. The department's internet website www.dmh.ca.gov has complaint forms, IMR application forms and instructions online.

The department may require enrollees and subscribers to participate in a plan's grievance process for up to 30 days before pursuing a grievance through the department. However, the department may not impose this waiting period for expedited review cases involving cancellations, rescissions, and nonrenewals, an imminent and serious threat to the health of the patient, including, but not limited to, severe pain, potential loss of life, limb, or major bodily function, or in any other case where the department determines that an earlier review is warranted.

Health Plan Linguistic and Cultural Policy Regarding Grievances

The Plan's grievance system ensures that all Members have access to and can fully participate in the grievance system by providing assistance for those with limited English proficiency or with a visual or other communicative impairment. When requested by a Member and/or his or her representative, the Plan will assist Members with limited English proficiency to obtain translation or interpretation of the Plan's grievance procedures, forms, and responses to grievances. The Plan will assist Members with visual or other communicative impairments in locating telephone relay systems and other devices and/or services that aid disabled individuals to communicate, so that the Member may participate in the grievance system.

Members who file a grievance against the Plan will not be discriminated or retaliated against in any way.

XXI. BINDING ARBITRATION

Any complaint, dispute or grievance arising between a Member and DentaQuest, not resolved by DentaQuest's grievance system and involving the Agreement or any of its terms and conditions, its breach or non-performance, or involving any claim of dental malpractice, shall be settled by arbitration pursuant to the rules and regulations then in force and effect of the American Arbitration Association. It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by California law, and not by a lawsuit or resort to court process except as California law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration.

The arbitration shall take place in Orange County, California and judgment upon any award rendered by the arbitrator may be duly entered in any court in the State of California having jurisdiction thereof.

The prevailing party shall be entitled to court costs and reasonable attorney's fees. DentaQuest will assume all or part of the Member's share of the fees and expenses of the neutral arbitrator

Members who would like to participate on this Committee should submit their request to DentaQuest's President.

XXIV. ORGAN AND TISSUE DONATION

Donating organ and tissue provides many societal benefits. Organ and tissue donation allows recipients of transplants to go on to lead fuller and more meaningful lives. Currently, the need for organ transplants far exceeds availability. If you are interested in organ donation, please speak to your physician. Organ donation begins at the hospital when a patient is pronounced brain dead and identified as a potential organ donor. An organ procurement organization will become involved to coordinate the activities.

XXV. GENERAL PROVISIONS

DentaQuest is subject to the requirements of the Act and Title 28, Division 1, Chapter 1 of the California Code of Regulations, and any provisions required to be in this Agreement by either of the above shall bind DentaQuest

whether or not provided in this Agreement. In the event that the Act or Regulations thereunder set forth any requirement that is not included herein or is contrary to this Agreement, it shall supersede the applicable provisions of this Agreement and shall be binding unto the parties hereto.

Nothing contained herein shall preclude DentaQuest from changing the location of any of its dental offices, as long as it retains a sufficient Participating Dentist network to provide dental services to enrollees.

In the event any of DentaQuest's Participating Dentists should terminate their relationship with DentaQuest, breach their Subscriber Agreement with DentaQuest, or be unable to render dental services hereunder, and Subscriber and or its Subscribers would be adversely or materially affected, DentaQuest will give Subscriber written notice thereof.

Upon termination of a Participating Dentist Contract, DentaQuest shall be liable for covered services rendered by such Participating Dentist (other than for Copayments as defined in Title 28, California Code of Regulations, section 1300.45(g)) to Members who retain eligibility under this Agreement or by operation of law under the care of such Participating Dentist at the time of such termination until the services being rendered to the Members by such Participating Dentist are completed, unless DentaQuest makes reasonable and medically appropriate provisions for the assumption of such services by another Participating Dentist.

If any provision of this Agreement is held to be illegal or invalid for any reason, such decision shall not affect the validity of the remaining provisions of this Agreement, and such remaining provisions shall continue in full force and effect unless the illegality or invalidity prevent the accomplishment of the objectives and purposes of this Agreement.

This Agreement is non-assignable by either party without the prior written consent of the other party. DentaQuest may, in its sole discretion, delegate administrative functions to other entities.

This Agreement constitutes the entire Agreement of the parties. This Agreement may only be modified in writing and executed by the parties.

Pursuant to Section 1365(b) of the Act, any Subscriber who alleges his enrollment has been cancelled or not renewed because of his health status or requirement for services may request review by the California Department of Managed Health Care. A reinstatement pursuant to this subdivision shall be retroactive to the time of cancellation or failure to renew and the Plan shall be liable for the expenses incurred by the Subscriber or enrollee for covered health care services from the date of cancellation or non-renewal to and including the date of reinstatement.

It is expressly understood that the relationship between Members and Participating Dentists shall be subject to the rules, limitations and privileges incident to the doctor-patient relationship. XXVII. INDEPENDENT MEDICAL REVIEW

External independent review is available to members for review of denials of experimental therapies where such therapies might be indicated for treatment of a life-threatening condition or seriously debilitating illness or for denials based on service not being medically necessary by contacting Member Services within five business days of the denial. The request for an independent medical review will be reviewed by the Dental Director or, if necessary, referred to the Quality Assurance Committee. Timeframes for considering independent medical review requests will be the same as for grievance processing. Members have the right to file information in support of the request for independent medical review.

The California Department of Managed Health Care is responsible for regulating health care service plans. If you have a grievance against your health plan, you should first telephone your health plan at **(1-855-425-4164)** and use your health plan's grievance process before contacting the department. Utilizing this grievance procedure does not prohibit any potential legal rights or remedies that may be available to you. If you need help with a grievance involving an emergency, a grievance that has not been satisfactorily resolved by your health plan, or a grievance that has remained unresolved for more than 30 days, you may call the department for assistance. You may also be eligible for an Independent Medical Review (IMR). XXVIII. TELEDENTISTRY

This plan includes coverage for dental services appropriately delivered through teledentistry services. In general, teledentistry can be used to make basic diagnoses, triage emergencies, and answer oral care questions. During a virtual visit, your dentist might determine that you need to be seen now for emergency care or decide you can wait until after regular in-office appointments resume. Services are covered on the same basis and to the same extent that the same service through in-person diagnosis, consultation, or treatment is covered. Coverage is not limited only to services delivered by select third-party corporate telehealth providers.

XXIX. PROVISION FOR OUT-OF-NETWORK CARE
