

# TOOTH FAIRY WAND

Let's make a wand just like the Tooth Fairy has!

Color and decorate each tooth below. Cut out each tooth. Place glue on the back of one cut-out tooth and place your stick and any other decorative elements (such as ribbon or string) you want to add towards the bottom of the tooth. Place the second tooth cut-out's backside on top. Let dry for about 15 minutes.

**Required Supplies:**

- Scissors
- Stick (chopstick, small stick from the yard)
- Glue

**Optional Supplies:**

- Color pencils or Crayons
- Glitter
- Ribbon/String
- Pom poms
