DentaQuest, LLC

Statement of Member Rights and Responsibilities

DentaQuest is committed to ensuring that all members are treated in a manner that respects their rights and acknowledges its expectations of member responsibilities.

The following is a statement of Member Rights:

- The right to be treated with respect and with due consideration for your dignity and privacy.
- The right to be furnished health care services in accordance with the applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §438.206 through §438.210, which relate to service availability, assurances of adequate capacity and services, coordination and continuity of care, and coverage and authorization of services.
- The right to receive information on available treatment options and alternatives, presented in a manner appropriate to your condition and ability to understand in accordance with the applicable sections of Chapter of the Code of Federal Regulations. See 42 CFR §438.10.
- The right to have a candid discussion of appropriate or medically-necessary treatment options, regardless of cost or benefit coverage.
- The right to participate with practitioners in decisions regarding your health care, including the right to refuse treatment.
- The right to be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation, as specified in federal regulations on the use of restraints and seclusion.
- The right to request and receive a copy of your medical records, and request they be amended or corrected as allowed in federal healthcare privacy regulations.
- The right to voice complaints, grievances or appeals about the organization or the care it provides.
- The right to make recommendations about our Member Rights and Responsibilities policy.
- The right to have an on-going source of primary care appropriate to your needs and a person formally designated as primarily responsible for coordinating your healthcare services.
- The right to receive personalized help from DentaQuest staff to ensure you are getting the care needed, especially in cases where you or your child have “special healthcare needs” such as long-term disease or severe medical condition(s).
- The right to timely access to covered services.
- The right to available services 24 hours a day, seven days a week when such availability is medically necessary.
- The right to request a second opinion from a qualified provider.
- The right to receive written notice of a decision to deny a service authorization request or to authorize a service in an amount, duration or scope less than requested.

As a member, you have the responsibility to:

- Provide information (to the extent possible) needed by DentaQuest, its practitioners and other healthcare providers so they can properly care for you.
- Follow plans and instructions for care to which you have agreed with your providers.
- Follow treatment plans and instructions for care to which you have agreed with your providers.

DentaQuest, LLC

Statement of Provider Rights and Responsibilities

Providers have the right to:

1. Communicate with members regarding treatment options.
2. Recommend a course of treatment to a member, even if the course of treatment is not a covered benefit or approved by the Managed Care Entity (hereafter referred to as "MCE") and DentaQuest. If a recommended course of treatment is not covered, e.g., not approved by Anthem/DentaQuest, the provider must notify the member if the provider intends to charge the member for such non-compensable services.
3. File an appeal or complaint pursuant to the procedures of Anthem and DentaQuest.
4. Supply accurate, relevant, factual information to a member in connection with an appeal or complaint filed by the member.
5. Object to policies, procedures, or decisions made by Anthem/DentaQuest.
6. To be informed of the status of their credentialing or recredentialing application upon request.

1.00 Compliance

1.01 Professional Responsibilities

Providers are required to carry out their obligations in the manner prescribed under applicable federal and State laws, regulations, codes, and guidelines including Indiana licensing board regulations and the Indiana Health Coverage Programs (IHCP), and in accordance with procedures and requirements as may from time to time be promulgated by the United States Department of Health and Human Services.

1.02 Provider Participation Requirements

1.02 (a) Anthem

An IHCP-attested provider does not have to be contracted with DentaQuest to submit claims for members of any Anthem plan. However, non-contracted providers are still governed by the policies, procedures, and benefits described herein.

2.00 Patient Eligibility Verification Procedures

2.01 Eligibility

Any person who is enrolled in a Managed Care Entity (hereafter referred to as "MCE") is eligible for benefits under the plan.

2.02 Member Identification Card

Members receive identification cards from their MCE. Providers are responsible for verifying that members are eligible at the time services are rendered and to determine if members have other health insurance.

Please note that due to possible eligibility status changes, this information does not guarantee payment and is subject to change.

Members will receive a member identification card from their MCE.

DentaQuest recommends that each dental office make a photocopy of the member's identification card each time treatment is provided. An identification card in itself does not guarantee that a person is currently enrolled with an MCE.

2.03 DentaQuest Eligibility Systems

Providers may access member eligibility information through DentaQuest's Interactive Voice Response (IVR) system or through the Provider Web Portal at <https://govservices.dentaquest.com>. The eligibility information received from either system will be the same information you would receive by calling DentaQuest's Customer Service department; however, by utilizing either system you can get information 24 hours a day, seven days a week without having to wait for an available Customer Service Representative.

Access to eligibility information via the Internet

Providers are encouraged to check eligibility through the IHCP eligibility check process at:

<https://portal.indianamedicaid.com/hcp/Default.aspx?alias=portal.indianamedicaid.com/hcp/provider>

The enrollment information contained within this web site will be considered the source of truth and should be used as the primary source of eligibility verification.

The DentaQuest Provider Web Portals allow providers to verify a member's eligibility as well as submit claims directly to DentaQuest. You can verify the member's eligibility online by entering the member's date of birth, the expected date of service and the member's identification number or last name and first initial.

Directions for using the Provider Web Portal

1. Login portal at <https://govservices.dentaquest.com> First time users will have to register. To register, you will need to have information about both the business office and specific details on at least one of the Providers at that office.
2. On the left side menu of the legacy portal, select "Member Management", followed by "Member Eligibility. Enter the applicable information for each member you are inquiring about. You are able to check on 30 members at one time and can print off the summary of eligibility given by the system for your records.

If you have not received instruction on how to complete the Provider Self Registration or process or if you have general Provider Web Portal questions, contact DentaQuest's Customer Service Department at 855-398-8411.

Access to eligibility information via the IVR line

To access the IVR, simply call DentaQuest's Customer Service Department at 855-398-8411. The IVR system will be able to answer all of your eligibility questions for as many members as you wish to check. Once you have completed your eligibility checks, you will have the option to transfer to a Customer Service Representative to answer any additional questions, (e.g., member history) you may have. Using your telephone keypad, you can request eligibility information on a member by entering the member's recipient identification number and an expected date of service. After our system analyzes the information, the patient's eligibility for coverage of dental services will be verified. If the system is unable to verify the member information you entered, you will be transferred to a Customer Service Representative.

Please note that due to possible eligibility status changes, the information provided by either system does not guarantee payment.

If you are having difficulty accessing either the IVR or website, please contact the Customer Service Department at 855-453-5286. They will be able to assist you in utilizing either system.

2.04 State Eligibility System

**State Division of Family Resources
800-403-0864**

2.05 MCE Eligibility Phone Numbers

**Anthem: HIP and Hoosier Healthwise 866-408-6131
and Hoosier Care Connect 844-284-1797**

Specialist Referral Process

A patient requiring a referral to a dental specialist can be referred directly to any specialist contracted with DentaQuest without authorization from DentaQuest. The dental specialist is responsible for obtaining authorization or prior authorization for services according to Appendix B of this manual. If you are unfamiliar with the DentaQuest contracted specialty network or need assistance locating a certain specialty, please contact DentaQuest's Customer Service Department.

3.00 Authorization for Treatment

3.01 Dental Treatment Requiring Prior Authorization

Prior authorization is a utilization tool that requires providers to submit documentation to support medical necessity of a request for service, associated with certain dental services for a member. Providers will not be paid if this documentation to support medical necessity of a request for service (appropriate pieces of documentation, such as X-rays or narratives are outlined in Exhibits A–H herein) is not provided to DentaQuest. In accordance with the applicable Dental Services Provider Agreement and applicable law, providers may in no event seek payment from members or persons acting on his or her behalf for providing covered services. Except where otherwise permitted by applicable law, this restriction will not prohibit collection of any applicable co-insurance, co-payments or deductibles from members or fees for non-covered services delivered on a fee-for-service basis to members under the terms of Anthem’s contract with the State, the plan or other similar documents issued by DentaQuest or Anthem. Furthermore, providers must hold DentaQuest, Anthem and the State of Indiana harmless in the event coverage is denied for failure to obtain authorization (either before or after services are rendered).

DentaQuest complies with all applicable utilization management (UM) regulations as set forth in federal and State laws, regulations, codes and guidelines, including but not limited Department of Labor regulations, Anthem’s contract with the State, DentaQuest’s contract with Anthem and any other applicable standards required by NCQA, URAC and other such organizations. DentaQuest includes a list of services that require review prior to payment. The following information provides direction on when approval should be secured prior to rendering treatment and when it may be secured following treatment.

Utilization management decision making is based on appropriate care and service, and does NOT reward for issuing denials, and does NOT offer incentives to encourage inappropriate utilization. DentaQuest does not make decisions about hiring, promoting, or terminating practitioners or other staff based on the likelihood, or on the perceived likelihood, that the practitioner or staff member supports, or tends to support, denial of benefits.

3.02 DentaQuest Authorization and Prior Authorization Required Process

Authorization:

For certain codes, DentaQuest allows providers to make the decision to submit a request for authorization before or after services have been rendered to the member.

Providers have the choice to:

1. Request an authorization for approval prior to rendering treatment to a member. Obtaining an authorization before treatment assures clinical criteria is met and assists in claims adjudication for eligible members, for eligible services.
2. In lieu of obtaining an authorization in advance of providing the service, providers have the option to submit a claim with required documentation (outlined in the “Required Documentation, Exhibits A-H), after treatment has been rendered. The provider must submit required documentation. If medical necessity criteria is met and the member meets administrative requirements (such as eligibility, age, properly completed claim, etc.), the claim will be paid. This process allows the provider the ability to treat patients without having to obtain prior approval before rendering services. Claims being reviewed as an authorization must meet the same clinical

criteria as a prior authorization and there is no guarantee of payment if there is not a prior-authorization on file.

How to determine which codes have an authorization available?

The tables of Covered Services (Exhibits A–H) contain a column marked “Authorization Required.” A “Yes” in this column indicates that the service listed requires documentation to be considered for reimbursement. All documentation needs to be submitted with the request for authorization before the treatment or with the claim submission (options 1 and 2, above).

Benefits to Authorization:

- Providers can receive an authorization before treatment, assuring that clinical criteria is met and assists in claims adjudication for eligible members, for eligible services (option 1).
- Members may receive services and providers can render services immediately (option 2).
- No submission/waiting time (option 2).

If a provider elects to submit for authorization (#1, above), documentation should include:

1. Radiographs, narrative, or other information where requested (See Exhibits A-H for specifics by code), and
2. ADA approved claim form with CDT codes on the claim form.

After DentaQuest reviews the documentation, the submitting office shall be provided an authorization number. Note that any authorizations that are denied will have been reviewed by both a DentaQuest Clinical Review Specialist and a DentaQuest Dental Consultant who is a licensed dentist. The authorization number will be provided within two business days from the date complete documentation is received. The authorization number will be issued to the submitting office by mail and must be submitted with the other required claim information after the treatment is rendered.

Required Prior Authorization – Orthodontics only:

All Orthodontic codes require prior authorization prior to beginning treatment. Treatment should not begin for these codes until prior authorization has been approved.

How to determine which codes have a required authorization?

The tables of Covered Services (Exhibits A–H) contain a column marked “Authorization Required.” If this column indicates “Prior Authorization Required,” documentation is required prior to treatment.

When a provider submits for required prior authorization, documentation should include:

1. Radiographs, narrative, or other information where requested (See Exhibits A-H for specifics by code), and
2. ADA approved claim form with CDT codes on the claim form.

After DentaQuest reviews the documentation, the submitting office shall be provided an authorization number. The authorization number will be provided within two business days from the date the documentation is received. The authorization number will be issued to the submitting office by mail and must be submitted with the other required claim information after the treatment is rendered.

Dental Emergency – No Authorization Needed

In cases where the member has a dental emergency, the provider should perform the necessary services and submit a claim to DentaQuest with either the word EMERGENCY or the word URGENT in box 35 of the claim form. Appropriate documentation should also be included with the submission. Please see 3.02 B, below for additional details.

A. Submitting Authorization Requests and X-Rays

- Electronic submission using the Provider Web Portal.
- Electronic submission using National Electronic Attachment (NEA) is recommended. For more information, please visit www.nea-fast.com and read the FAQ at the bottom of the page. To register, click the “Register” button at the top of the home page.
- Submission of duplicate radiographs is encouraged. Duplicate radiographs will be recycled and will not be returned.
- Submission of original radiographs with a self-addressed stamped envelope (SASE) so that we may return the original radiographs. Note that determinations will be sent separately and any radiographs received without a SASE will not be returned to the sender.

Please note we also require radiographs be mounted when there are five or more radiographs submitted at one time. If five or more radiographs are submitted and not mounted, they will be returned to you and your request for authorization, prior authorization required and/or claims will not be processed. You will need to resubmit a copy of the 2006 or newer ADA form that was originally submitted, along with mounted radiographs so that we may process the claim correctly.

Acceptable methods of mounted radiographs are:

- Radiographs duplicated and displayed in proper order on a piece of duplicating film
- Radiographs mounted in a radiograph holder or mount designed for this purpose

Unacceptable methods of mounted radiographs are:

- Cut out radiographs taped or stapled together
- Cut out radiographs placed in a coin envelope
- Multiple radiographs placed in the same slot of a radiograph holder or mount

All radiographs should include member’s name, identification number and office name to ensure proper handling.

B. Emergency Treatment: Authorization and documentation submitted with claim

Emergency treatment does not require prior authorization. In an emergency, the member should be treated first and the claim should be submitted after the service, with the required documentation listed in Exhibits A–H, under the column “Required Documentation.” The claim submission process for emergency services mirrors the claim process for standard claim submission. DentaQuest will review all documentation along with the claim, with the understanding that the service was performed as an emergency service and prior authorization was not required.

3.03 Payment for Non-Covered Services

Providers shall hold members, DentaQuest, Anthem and the state of Indiana harmless for the payment of non-covered services.

Members may be charged for non-covered services provided and only when the following conditions are met. DentaQuest has modeled this section after IHCP Policy which is available at the below link and is also summarized below:

<https://www.in.gov/medicaid/files/provider%20enrollment.pdf>

Federal and state regulations prohibit providers from charging any Indiana Health Coverage Programs (IHCP) member, or the family of a member, for any amount not paid for covered services following a reimbursement determination by the IHCP. See Code of Federal Regulations, Title 42, Part 447, Subpart A, Section 447.15; Indiana Administrative Code, Title 405, Article 1, Rule 1, Section 3(i). Furthermore, the IHCP Provider Agreement contains the following provision:

“To accept as payment in full the amounts determined by FSSA or its fiscal agent, in accordance with the federal and state statutes and regulations as the appropriate payment for Indiana Health Coverage Program covered services provided to Indiana Health Coverage Program members (recipients). Provider agrees not to bill members, or any member of a recipient’s family, for any additional charge for Indiana Health Coverage Program covered services, excluding any co-payment permitted by law.”

As a condition of the provider’s participation in the IHCP, the provider must accept the IHCP determination of payment as payment in full, whether the IHCP is the primary or secondary payer. If the provider disagrees with the Medicaid determination of payment, the provider’s recourse is limited to an adjustment request, administrative review, and appeal as provided in 405 IAC 1-1-3. Violation of this section constitutes grounds for the termination of the Provider Agreement and decertification of the provider, at the option of the FSSA.

Charging for Missed Appointments

Medicaid accepting providers are not permitted to charge Medicaid members in accordance with federal regulations for missed appointments.

Charging for Copies or Transfers of Medical Records

Medicaid accepting providers are not permitted per federal regulations to charge for copies or transfers of medical records, including mailing costs.

Member Billing Exceptions

An IHCP provider can bill an IHCP member for **covered and non-covered** services if a signed waiver is obtained prior to rendering services. The provider can bill for services only when the following condition is met:

- The IHCP member must understand, before receiving the service, that the service is not covered under the IHCP and that the member is responsible for the service charges. The provider must maintain documentation in the member’s file that clearly demonstrates that the member voluntarily chose to receive the service, knowing it was not covered by the IHCP. A provider may use a “waiver” form to document such notification. Use of a “waiver” form is encouraged.

Note: If a waiver is used to document that a member has been informed that a service is not covered, the waiver must not include conditional language such as “if the service is not covered by the IHCP, or not authorized by the member’s

*primary medical provider (PMP), then the member is responsible for payment.”
This language appears to circumvent the need for the provider to verify eligibility
or seek PMP authorization or prior authorization (PA) as needed.*

Example of a covered service that the member may be charged for:

- The ADA code is covered by Anthem; however, it is not covered within the member’s benefit package. For example, the member requests anesthesia for an extraction. Anesthesia is an allowable fee; however, the member does not meet medical criteria. Because the code is covered within the HIP, Hoosier Care Connect and Hoosier Healthwise plans, the provider can bill the member the HIP, Hoosier Care Connect or Hoosier Healthwise fee only, not the provider’s standard and customary fee.
- To bill a member for a covered service, the provider must:
 - Obtain a waiver, signed by the member, that expressly states that the service is covered in their HIP, Hoosier Care Connect or Hoosier Healthwise plan only when medical necessity criteria has been established, that the member does not meet the criteria of Indiana Medicaid, their health plan or DentaQuest.
 - By signing the waiver, the member is agreeing to accept any financial responsibility for covered services for which their dental case did not meet established medical necessity criteria.
 - The waiver must include the amount to be charged for the non- covered services and must be signed by the member.
 - A waiver signed before a service is denied by DentaQuest shall not be sufficient.

Example of a non-covered service for which the member may be charged:

- Cosmetic procedures, such as tooth whitening, are not covered benefits under any HIP, Hoosier Care Connect or Hoosier Healthwise plan. The entire charge for tooth whitening is not covered by the Covered Services Rule and the provider can bill member its usual and customary fees for this service.
- A provider can bill the member if the member failed to advise the provider of Medicaid eligibility. If the provider is notified of the member’s Medicaid eligibility within the one-year filing limit, the IHCP must be billed for the covered service. Any monies that were collected by the IHCP provider from the member must be reimbursed in full to the IHCP member.
- Documentation must be maintained in the file to establish that the member was billed or information requested within the filing limit.
- Providers may bill a member if the service is not covered by the member’s benefit plan, such as dentures, which is not covered for HIP Plus members. Because dentures is a covered benefit with the HIP, Hoosier Care Connect or Hoosier Healthwise plans, the provider would need to charge the HIP, Hoosier Care Connect or Hoosier Healthwise fee and not the provider’s usual and customary fee.
- Providers may bill a member when a covered service required authorization and was denied by DentaQuest. If the member would like to proceed with the treatment, the provider must:
 - Obtain a waiver, signed by the member, that expressly states that the service is covered in their HIP, Hoosier Care Connect or Hoosier Healthwise plan only when medical necessity criteria has been established, that the member does not meet the criteria of Indiana Medicaid, their health plan or DentaQuest.

- By signing the wavier, the member is agreeing to accept any financial responsibility for covered services for which their dental case did not meet established medical necessity criteria.
- The wavier must include the amount to be charged for the non- covered services and must be signed by the member.
- A waiver signed before a service is denied by DentaQuest shall not be sufficient.
- Providers may not bill a member when they submit a claim after the service was rendered, without authorization and the claim is denied. Because the service was rendered, you cannot go back and bill the member because the claim was denied and the member was not given the chance to sign a waiver that included the above criteria.

Refusing or Restricting Services to Members

A provider can make a decision not to provide a service to a member as long as the reason for doing so is not a violation of civil rights laws or the *Americans with Disabilities Act* and abides by state and Federal laws.

Policies and patient care must be the same for Medicaid, commercial or fee for services patients. For example, Medicaid participating providers cannot prioritize commercial members over Medicaid patients. For example, Medicaid members should not be made to wait in the waiting room for services while commercial members are given priority appointments.

Providers can restrict the number of IHCP patients by any means, as long as their standards for limiting patients do not violate any statutes or regulations.

For example, *405 IAC 5-1-2* prohibits discrimination on the basis of "age, race, creed, color, national origin, sex, or handicap." If the provider's specialty is limited to patients of a certain age or sex, such as gynecology or pediatrics, that is permissible. If individual providers are unsure whether their standards or methods violate civil rights laws or any other laws, they must verify with their attorneys.

3.04 Electronic Attachments

DentaQuest accepts dental radiographs electronically via FastAttach™ for authorization requests. DentaQuest, in conjunction with National Electronic Attachment, Inc. (NEA), allows providers the opportunity to submit all claims electronically, even those that require attachments. This program allows transmissions via secure Internet lines for radiographs, periodontic charts, intraoral pictures, narratives and EOBs.

FastAttach is inexpensive and easy to use, reduces administrative costs, eliminates lost or damaged attachments and accelerates claims, authorization and/or prior authorization required processing. It is compatible with most claims clearinghouse or practice management systems.

For more information or to sign up for FastAttach go to www.nea-fast.com or call NEA at 800-782-5150

3.05 Dispute Resolution/Provider Appeals Procedure

Providers that disagree with determinations made by the DentaQuest dental directors may submit a written Notice of Appeal to the member's MCE that specifies the nature and rationale of the disagreement. This notice *and* additional support information must be

sent to the member's MCE within 33 days from the date of the original determination to be reconsidered by the member's MCE Peer Review Committee.

All prior authorization appeals must be filed to the member's MCE at the appropriate address listed below:

Anthem

DentaQuest, LLC
Attention: Utilization Management/Provider Appeals
PO Box 2906
Milwaukee, WI 53201-2906

The term "appeal" is defined as a request for review of an action. An "action," as defined in applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §438.400(b), is the:

- Denial or limited authorization of a requested service, including the type or level of service;
- Reduction, suspension, or termination of a previously authorized service;
- Denial, in whole or in part, of payment for a service;
- Failure to provide services in a timely manner, as defined the state; or
- Failure of an MCE to act within the required timeframes.

Member Appeals

Members may file the appeal orally; however, they must follow the oral filing with a written, signed appeal, unless the member or provider requests an expedited appeal. Authorized representatives or providers may act on behalf of members with respect to requesting an appeal and the procedures involved. The member is allowed the opportunity for representation by anyone he or she chooses, including a provider or attorney. For expedited appeals, a health care practitioner with knowledge of the member's condition (e.g., the treating practitioner) may act as the member's authorized representative. The member and member representative may present evidence or testimony in person as well as in writing.

- Standard Appeals: The member's MCE must respond to all oral and written appeals within three business days of receiving the request. The appeal must be resolved within 30 business days of appeal and written notification of the appeal resolution must be sent to the member within five business days after the decision is made. If the member requests an extension, or we are unable to make a decision within 30 business days because additional information is needed either from the provider or member that has been requested, but not provided, the member is notified before the 20th day of the delay. The member receives a written notice of the delay, demonstrating in the notice that the extension is in the member's best interest and that a decision will be granted within 14 additional business days.
- Expedited appeals: The member's MCE resolves expedited appeals meeting FSSA criteria within 48 hours of receiving the request and the attending physician and member are notified immediately by telephone. This time frame can be extended pursuant to the applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §438.408(c). A written confirmation of the decision is also sent by mail to the member within 48 hours of notification.

Levels of Further Appeal

If the member is not satisfied with appeal decision, or if the standard appeal or expedited appeal results in upholding the denial, additional external appeal procedure options are available to the member. The member (or member's representative or the provider on the member's behalf) may choose either an external review by an Independent Review Organization (IRO) or a State Fair Hearing.

External Review

- Independent Review Organization (IRO) A member may pursue review by an IRO if they are not satisfied with the member's MCE appeal decision (must be filed within 120 calendar days of receiving appeal determination). The IRO is available for appeals that involve an adverse utilization review determination, an adverse determination of medical necessity or a determination that a proposed service is experimental or investigational. A member may also pursue an expedited external review. Requests for excluded benefits or exceed benefits are not eligible for independent review.
- The member's MCE responds to requests for external review, within three (3) business days of receiving the request for an IRO review. A standard external review must be resolved within 15 business days after the review is requested. An expedited external review must be resolved within 48 hours of receipt of the request. For a standard external review, the member is notified within 72 hours of the IRO panel's decision. For an expedited external review, the member must be notified within 24 hours of the IRO panel decision.
 - The member is informed that he/she is not required to bear costs of the IRO, including any filing fees. An IRO determination is binding.
 - The resolution notification of an IRO denial decision includes the member's appeal rights to request a FSSA fair hearing.

FSSA Fair Hearing

The member may choose to request the FSSA fair hearing by submitting a written request directly to FSSA within 60 days of either:

- Receipt of appeal denial notification from their MCE by submitting a request in writing to FSSA.
- Receipt of an IRO review determination and is not satisfied with the IRO decision.

Members submit a request directly to FSSA for a fair hearing and timeframes are according to those rules that govern the FSSA in conducting the FSSA fair hearing. Anthem responds to all information requests by the FSSA fair hearing officer or designee within the required format and timeframe.

Office of Hearings and Appeals
402 West Washington, Room W392
Indianapolis, IN 46204

Please Note: At all levels of the grievance and appeal process, the member's MCE allows the member the opportunity for representation by anyone he or she chooses, including an attorney or provider. Members are also offered the opportunity to send notes, medical records or other documents that will help in the review.

4.00 Participating Hospitals

In the event that a provider cannot render services in their office, DentaQuest understands that the provider may need to treat members in a hospital setting due to the member's medical history. In these cases, DentaQuest will adjudicate for the dental services and the appropriate MCE will adjudicate for the hospital charges. Hospital services may require authorization from Anthem and must be performed at a hospital that contracts with the member's MCE. Upon approval, DentaQuest participating providers are required to administer services Anthem's participating hospitals. The provider should submit services to DentaQuest for authorization. Upon receipt of approval from DentaQuest, the provider should contact the appropriate MCE below for facility authorization at the number below.

Anthem members enrolled in Hoosier Healthwise and HIP: 866-408-6131
Hoosier Care Connect members: 844-284-1797

Participating Hospitals may change. Please contact Anthem for current listing.

5.00 Claim Submission Procedures (claim filing options)

DentaQuest receives dental claims in four possible formats. These formats include:

- Electronic claims submission using the Provider Web Portal at www.DentaQuest.com
- Electronic submission via clearinghouses
- HIPAA Compliant 837D File
- Paper claims

5.01 Submitting Authorization or Claims with X-Rays

- Electronic submission using the Provider Web Portal.
- Electronic submission using National Electronic Attachment (NEA) is recommended. For more information, please visit www.nea-fast.com and read the FAQ at the bottom of the page. To register, click the "Register" button at the top of the home page.
- Submission of duplicate radiographs (which we will recycle and not return).
- Submission of original radiographs with a self-addressed stamped envelope (SASE) so that we may return the original radiographs. Note that determinations will be sent separately and any radiographs received without a SASE will not be returned to the sender.
- **Please note that photocopies of radiographs are rarely of diagnostic quality and should not be submitted.**

Please note we also require radiographs be mounted when there are five or more radiographs submitted at one time. If five or more radiographs are submitted and not mounted, they will be returned to you and your request for authorization or prior authorization required and/or claims will not be processed. You will need to resubmit a copy of the 2006 or newer ADA form that was originally submitted, along with mounted radiographs so that we may process the claim correctly.

Acceptable methods of mounted radiographs are:

- Radiographs duplicated and displayed in proper order on a piece of duplicating film.
- Radiographs mounted in a radiograph holder or mount designed for this purpose.

Unacceptable methods of mounted radiographs are:

- Cut out radiographs taped or stapled together.
- Cut out radiographs placed in a coin envelope.
- Multiple radiographs placed in the same slot of a radiograph holder or mount.

All radiographs should include member's name, identification number and office name to ensure proper handling.

5.02 Electronic Claim Submission Utilizing DentaQuest's Internet Website

DentaQuest Participating providers may submit claims directly to DentaQuest by utilizing the Provider Web Portal. Submitting claims via the website is very quick and easy. It is especially easy if you have already accessed the site to check a member's eligibility prior to providing the service.

To submit claims via the Provider Web Portal:

1. Login to <https://govservices.dentaquest.com>.
2. Select "Claims/Pre-Authorizations" from the left menu and then "Submit Claims & Pre Authorizations". The Provider Web Portal allows you to attach electronic files (such as x-rays in jpeg format, reports and charts) to the claim.

5.03 Electronic Authorization Submission Utilizing DentaQuest's Internet Website

DentaQuest Participating providers may submit authorization or prior authorization required requests directly to DentaQuest by utilizing the Provider Web Portal . Submitting prior authorizations via the Provider Web Portal is very quick and easy. It is especially easy if you have already accessed the site to check a member's eligibility prior to providing the service.

To submit authorization or prior authorization required requests via the Provider Web Portal:

1. Login to <https://govservices.dentaquest.com>
2. Select "Claims & Pre-Authorizations" from the left menu and then "Submit Claims & Pre-Authorizations."

The Provider Web Portal also allows you to attach electronic files (such as x-rays in jpeg format, reports and charts) to the pre-authorization.

5.04 Electronic Claim Submission via Clearinghouse

DentaQuest works directly with Change Health Care (888-255-7293), Tesia (800-724-7240), DentalXChange (800-576-6412), Claim Remedi (800-763-8484), TriZetto (800-969-3666), InMediata (877-466-9656) for claim submissions to DentaQuest.

You can contact your software vendor and make certain that they have DentaQuest listed as the payer and claim mailing address on your electronic claim. Your software vendor will be able to provide you with any information you may need to ensure that submitted claims are forwarded to DentaQuest. DentaQuest's Payor ID is CX014.

5.05 HIPAA Compliant 837D File

For providers who are unable to submit electronically via the Internet or a clearinghouse, DentaQuest will work directly with the provider to receive their claims electronically via a

HIPAA compliant 837D or 837P file from the provider's practice management system. Please email EDITeam@greatdentalplans.com to inquire about this option for electronic claim submission.

5.06 National Provider Identifier (NPI) Requirements for Submission of Electronic Claims

In accordance with the HIPAA guidelines, DentaQuest has adopted the following NPI standards in order to simplify the submission of claims from all of our providers, conform to federal and state required standards and increase the accuracy and efficiency of claims administered by DentaQuest.

- Providers must register for the appropriate NPI classification at the following website <https://nppes.cms.hhs.gov/NPPES/Welcome.do> and provide this information to DentaQuest in its entirety.
- All providers must register for an Individual NPI. You may also be required to register for a group NPI (or as part of a group) dependent upon your designation.
- When submitting claims to DentaQuest you must submit all forms of NPI properly and in their entirety for claims to be accepted and processed accurately. If you registered as part of a group, your claims must be submitted with both the Group and Individual NPIs. These numbers are not interchangeable and could cause your claims to be returned to you as non-compliant.
- If you are presently submitting claims to DentaQuest through a clearinghouse or through a direct integration you need to review your integration to assure that it is in compliance with the revised HIPAA compliant 837D format. This information can be found on the 837D Companion Guide located on the Provider Web Portal.

5.07 Paper Claim Submission

- Claims must be submitted on ADA-approved claim forms or other forms approved in advance by DentaQuest.
- Member name, identification number, and date of birth must be listed on all claims submitted. If the member identification number is missing or miscoded on the claim form, the patient cannot be identified. This will result in the claim being returned to the submitting provider office, causing a delay in payment.
- The paper claim must contain a legible provider name and signature.
- The provider and office location information must be clearly identified on the claim. If only the dentist signature is used for identification, the dentist's name may not be clearly identified. Please include a typed dentist (practice) name or the DentaQuest Provider Identification Number.
- The paper claim form must contain a valid provider National Provider Identification (NPI) number.
- The date of service must be provided on the claim form for each service line submitted.
- Approved ADA dental codes as published in the current CDT book or as defined in this manual must be used to define all services.
- List all quadrants, tooth numbers and surfaces for dental codes that necessitate identification (extractions, root canals, amalgams and resin fillings). Missing tooth and surface identification codes can result in the delay or denial of claim payment.

- Affix the proper postage when mailing bulk documentation. DentaQuest does not accept mail with postage due. This mail will be returned to the sender and will result in delay of payment.

Claims should be mailed to the following address:

DENTAQUEST of Indiana, LLC–Claims
PO Box 2906
Milwaukee, WI 53201-2906

5.08 Third Party Liability (TPL)

According to state and federal regulations, Medicaid, therefore DentaQuest, is the payer of last resort. When DentaQuest is the secondary insurance carrier, a copy of the primary carrier's Explanation of Benefits (EOB) must be submitted with the claim.

Submitting TPL Claims to DentaQuest

- Providers must include a copy of the third party's explanation of benefits when submitting a claim to DentaQuest. At a minimum, submitted EOBs must minimally include the date of service, the services provided as identified by the appropriate ADA CDT code, and the date any payment was issued. For electronic claim submissions, the payment made by the primary carrier must be indicated in the appropriate COB field.
- When a primary carrier's payment meets or exceeds a provider's contracted rate or fee schedule, DentaQuest will consider the claim paid in full and no further payment will be made on the claim.
- If DentaQuest has already paid the provider and subsequently the provider obtains TPL payment, the provider must submit a refund to DentaQuest.

Liability Insurance

If a provider is aware that a member has been in an accident; however, does not yet know who the liable third party is, the provider can bill DentaQuest. If DentaQuest is billed, the provider must note the claims are for accident-related services on the applicable claim form. If a provider initially pursues payment from the liable third party and the claim is submitted to DentaQuest after the filing time limit, the claim may be denied.

Third-Party Payer Fails to Respond (90-Day Provision)

When the member has other insurance, a DentaQuest provider must submit claims to the other insurance carrier before submitting to DentaQuest. When a third-party insurance carrier fails to respond within 90 days of the provider's billing date, the claim can be submitted to DentaQuest for payment consideration. However, one of the following must accompany a claim to substantiate attempts to bill the third party or the claim will be denied:

- Copies of unpaid bills or statements sent to the third party, whether an individual or an insurance company. Provider must note the date of the billing attempt and the words **no response after 90 days** on an attachment. This information must be clearly indicated. Written notification from the provider indicating the billing dates and explaining that the third party failed to respond within 90 days from the billing date.
- The provider is required to boldly make a note of the following on the attachment:
 - Date of the filing attempt
 - The phrase "no response after 90 days"

- Member identification number (RID) & Provider's National Provider Identifier (NPI)
- Name of primary insurance carrier billed
- For claims filed electronically, the following must be documented in the claim note segment of the 837P transaction:
 - Date of the filing attempt
 - The phrase "no response after 90 days"
 - The member's identification (RID) number & IHCP provider number
 - Name of primary insurance carrier billed

5.09 Filing Limits

Contracted providers must submit all claims within 90 days of the performance of service. Any claim submitted beyond the timely filing limit of 90 days for a DentaQuest contracted provider and 180 days for a non-contracted DentaQuest provider or emergency services will be denied for "untimely filing." If a claim is denied for "untimely filing," the provider cannot bill the member. If DentaQuest is the secondary carrier, the timely filing limit begins with the date of payment or denial from the primary carrier.

5.10 Receipt and Audit of Claims

In order to ensure timely, accurate remittances to each provider, DentaQuest performs an audit of all claims upon receipt. This audit validates member eligibility, procedure codes and dentist identifying information. A DentaQuest Benefit Analyst analyzes any claim conditions that would result in non-payment. When potential problems are identified, the provider's office may be contacted and asked to assist in resolving this problem. Please contact our Customer Service Department with any questions you may have regarding claim submission or your remittance.

Each DentaQuest provider office receives an "explanation of benefit" report with their remittance. This report includes patient information and an allowable fee by date of service for each service rendered.

5.11 Direct Deposit

As a benefit to providers, DentaQuest offers Electronic Funds Transfer (Direct Deposit) for claims payments. This process improves payment turnaround times as funds are directly deposited into the provider's banking account.

To receive claims payments through the Direct Deposit Program, providers must:

- Complete and sign the Direct Deposit Authorization Form that can be found on the website www.DentaQuest.com.
- Attach a voided check to the form. *The authorization cannot be processed without a voided check.*
- Return the Direct Deposit Authorization Form and voided check to DentaQuest:

Via Fax: 262-241-4077

- Via Mail: DentaQuest, LLC.
PO Box 2906
Milwaukee, WI 53201-2906
ATTN: PDA Department

The Direct Deposit Authorization form must be legible to prevent delays in processing. Providers should allow up to six weeks for the Direct Deposit Program to be implemented.

after the receipt of completed paperwork. Providers will receive a bank note one check cycle prior to the first Direct Deposit payment.

Providers enrolled in the Direct Deposit process must notify DentaQuest of any changes to bank accounts, such as changes in routing or account numbers or a switch to a different bank. All changes must be submitted via the Direct Deposit Authorization form. Changes to bank accounts or banking information typically take two to three weeks. DentaQuest is not responsible for delays in funding if providers do not properly notify DentaQuest in writing of any banking changes.

Providers enrolled in the Direct Deposit Program are required to access their remittance statements online and will no longer receive paper remittance statements. Electronic remittance statements are located on DentaQuest's Provider Web Portal. Providers may access their remittance statements by following the below:

1. Login to <https://govservices.dentaquest.com>
2. Select "Explanation of Benefits" from the left menu.

6.00 Health Insurance Portability and Accountability Act (HIPAA)

As a healthcare provider, your office is required to comply with all aspects of the HIPAA regulations in effect as indicated in the final publications of the various rules covered by HIPAA.

DentaQuest has implemented various operational policies and procedures to ensure that it is compliant with the Privacy, Administrative Simplification and Security Standards of HIPAA. One aspect of our compliance plan is working cooperatively with our providers to comply with the HIPAA regulations. In relation to the Privacy Standards, DentaQuest has previously modified its provider contracts to reflect the appropriate HIPAA compliance language. These contractual updates include the following in regard to record handling and HIPAA requirements:

- Maintenance of adequate dental/medical, financial and administrative records related to covered dental services rendered by provider in accordance with federal and state law.
- Safeguarding of all information about members according to applicable state and federal laws and regulations. All material and information, in particular information relating to members or potential members, which is provided to or obtained by or through a provider, whether verbal, written, tape, or otherwise, shall be reported as confidential information to the extent confidential treatment is provided under state and federal laws.
- Neither DentaQuest nor provider shall share confidential information with a member's employer, absent the member's consent for such disclosure.
- Provider agrees to comply with the requirements of the Health Insurance Portability and Accountability Act ("HIPAA") relating to the exchange of information and shall cooperate with DentaQuest in its efforts to ensure compliance with the privacy regulations promulgated under HIPAA and other related privacy laws.

Provider and DentaQuest agree to conduct their respective activities in accordance with the applicable provisions of HIPAA and such implementing regulations.

In relation to the Administrative Simplification Standards, you will note that the benefit tables included in this ORM reflect the most current coding standards (CDT) recognized by the ADA. Effective the date of this manual, DentaQuest will require providers to submit

all claims with the proper CDT codes listed in this manual. In addition, all paper claims must be submitted on the current approved ADA claim form.

Note: Copies of DentaQuest's HIPAA policies are available upon request by contacting DentaQuest's Customer Service department at 888-291-3762 or via email at denelig.benefits@DentaQuest.com.

6.01 HIPAA Companion Guide

DentaQuest participating providers may view a copy of the most recent HIPAA Companion Guide by utilizing the Provider Web Portal:

1. Login to <https://govservices.dentaquest.com>
2. Log in using your password and ID.
3. Once you have logged in, click on the link named "Document List" on the left menu.

7.00 Provider Inquiries, Complaints and Grievances (Policies 200.010, 200.011, 200.013, 200.017)

DentaQuest adheres to Indiana state, federal, and MCE requirements related to processing inquiries, complaints, and grievances. Unless otherwise required by Indiana state and MCE, DentaQuest processes such inquiries, grievances and appeals consistent with the following:

- A. Inquiry: The term *inquiry* refers to a concern, issue or question that is expressed orally by a member that will be resolved by the close of the next business day.
- B. Complaint: A *complaint* is an expression of dissatisfaction (written or verbal) from a member, an attorney on behalf of a member, or a government agency registering a request for review of a prior decision.
- C. Grievance: A *grievance* is a notice sent by a member or attorney on behalf of a member registering a request for formal review of a complaint decision. Issues categorized as grievances have progressed through the inquiry and complaint levels of the process resulting in a member's dissatisfaction with the outcome of issue review.
- D. **Appeal: The term *appeal* is defined as a request for a review of an action. An *action*, as defined in the applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §438.400(b).**
- E. Expedited Appeal: An expedited request for review of an action. An *Expedited Appeal* is defined as a review related to an illness, disease, condition, injury, or disability that would seriously jeopardize the member's life, health, or ability to reach and maintain maximum function.
- F. DentaQuest's Complaints/Grievance Coordinator receives member and provider inquiries, grievances and appeals. The Coordinator investigates the issues, compiles the findings, requests patient records (if applicable), sends the records to the dental consultant for review and determination (if applicable), and obtains a resolution. The appropriate individuals are notified of the resolution (i.e., MCE, member, and provider as applicable). The grievance or appeal is closed and maintained on file for tracking and trending purposes. Any member and any provider acting on behalf of a member with the member's consent may appeal any utilization management determination resulting in a denial, reduction, suspension or termination of dental services.
- G. DentaQuest must receive provider formal grievances in writing. All documentation relating to the grievance should be included with the grievance.
- H. If you or the member disagrees with DentaQuest's decision concerning a pre-service request, you or the member may file an appeal in writing. You have 33 calendar days from the date of the determination to file the appeal. If you are submitting the appeal on the member's behalf, you must include the member's written permission with your request. Pre-service appeals should be directed to the addresses listed below (this process is outlined in section 2.05).
- I. If you or the member disagrees with DentaQuest's decision concerning a post-service request, you or the member may file an appeal in writing. You have 60 calendar days from the date of the determination to file the appeal. All post service appeals should be sent to DentaQuest at the address listed below.

- J. The Complaints/Grievances Coordinator receives member and provider grievances and appeals. The Coordinator requests appropriate documentation, forwards the documentation to the dental consultant for review and determination, and the decision to uphold or overturn the initial decision is communicated to the appropriate individuals.

Note: Copies of DentaQuest policies and procedures can be requested by contacting Customer Service at 855-453-5286.

Inquiries, complaints and grievances for Anthem's should be sent to:

<p>[Anthem</p> <p><i>Member Complaints/Grievances/ Pre-Service Appeals:</i></p> <p>Attn: Grievance Coordinator Anthem Blue Cross and Blue Shield Member Appeals and Grievances PO Box 62429 Virginia, Beach, VA 23466</p> <p>*Appeals must be submitted in writing, but if you need help please call: Hoosier Healthwise, HIP members: [866- 408-6131 Hoosier Care Connect members: [844- 284-1797</p> <p><i>Provider Complaints/Grievances:</i> PO Box 2906 Milwaukee, WI 53201-2906</p>
--

8.00 Utilization Management Program

8.01 Introduction

DentaQuest is committed to providing cost effective, accessible and quality care to members and utilization management is an essential component. Our Utilization Management program is in place to consistently evaluate and address appropriate utilization of dental services in a cost effective and timely manner. Our Utilization Management Department works toward accurate administration of the plan's benefits. With the effective administration of the DentaQuest policies and procedures, we can assure that Utilization Management decisions are made in a fair and consistent manner, and that members have equitable access to care.

DentaQuest complies with recognized Utilization Management regulations as they apply to dentistry including any federal or state regulations, including the Department of Labor ERISA regulations, as well as standards and guidelines through such organizations as NCQA and URAC.

8.02 Community Practice Patterns

DentaQuest has developed a philosophy of Utilization Management that recognizes the fact that there exists, as in all healthcare services, a relationship between the dentist's treatment planning, treatment costs and treatment outcomes. The dynamics of these relationships, in any region, are reflected by the "community practice patterns" of local dentists and their peers. With this in mind, DentaQuest's Utilization Management programs are designed to ensure the fair and appropriate distribution of healthcare dollars as defined by the regionally based community practice patterns of local dentists and their peers.

All utilization management analysis, evaluations and outcomes are related to these patterns. DentaQuest's Utilization Management programs recognize that there exists a normal individual dentist variance within these patterns among a community of dentists and accounts for such variance. Also, specialty dentists are evaluated as a separate group and not with general dentists since the types and nature of treatment may differ.

8.03 Evaluation

DentaQuest's Utilization Management programs evaluate claims submissions in such areas as:

- Diagnostic and preventive treatment
- Patient treatment planning and sequencing
- Types of treatment
- Treatment outcomes
- Treatment cost effectiveness

8.04 Fraud and Abuse

Definitions:

Fraud: In insurance fraud, "fraud" is the intentional submission of a "document or statement" that contains a material misrepresentation made by an individual/entity knowing that the document/statement contains false or misleading information for the purpose of receiving benefits to which they would not have otherwise been entitled.

Waste: Is defined as a loss through carelessness, inefficiency, or ignorance.

Abuse: Is considered an action that is not consistent with generally accepted standards and practices related to that industry.

Member Abuse: Intentional infliction of physical harm, injury caused by negligent acts or omissions, unreasonable confinement, sexual abuse or sexual assault.

Provider Fraud: Provider practices that are inconsistent with sound fiscal, business or medical practices, and result in unnecessary cost to the program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care may be referred to the appropriate state regulatory agency. Suspected fraudulent behavior should be reported to DentaQuest.

Member Fraud: If a provider suspects a member of ID fraud, drug-seeking behavior, or any other fraudulent behavior should be reported to DentaQuest.

Reporting Fraud:

It is the responsibility of **everyone** to report suspected Fraud, Waste and Abuse. The avenues for reporting are:

DentaQuest Fraud Hotline: 800-237-9139

FSSA Fraud Hotline: 800-403-0864

**You can find more information about reporting fraud and abuse at
<http://www.in.gov/fssa/2385.htm>**

How Does DentaQuest investigate Fraud?

DentaQuest will respond to all incoming calls alleging suspected fraud, waste or abuse to determine the validity of the allegation and will conduct in depth data analysis of paid claims to determine the proper course of action. DentaQuest will open an investigation to include a review of clinical records, if the allegations are substantiated through preliminary interviews and data analysis.

It is the policy of DentaQuest to provide service in a manner that complies with applicable federal and state laws, including but not limited to the applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §438.608 (Program Integrity Requirements) as well as the administrative and civil remedies under Chapters 32 and 36 of Title 31 and that meets the high standards of professional ethics.

It is the responsibility of the Fraud Prevention and Recovery Department under the direction of the Vice President of Fraud Prevention and Recovery and the Director of Fraud Prevention and Recovery to investigate all potential issues and/or allegations of program fraud, waste and abuse by network providers and Medicaid recipients, and comply with all contractually required reporting requirements to the Office of Medicaid Integrity. The Vice President of Fraud Prevention and Recovery serves as a liaison to the Compliance Officer with respect to the activities of the Fraud Prevention and Recovery Department including cases under investigation that may require the involvement of the Compliance Officer. The Vice President and Manager of Fraud Prevention and Recovery are members DentaQuest's Compliance Committee.

The Fraud Prevention and Recovery Unit is integral to fulfilling the DentaQuest Anti-Fraud, Waste and Abuse (FWA) Plan. The Unit's mission is to establish policies and procedures for the prevention, detection, and investigation of FWA. Through sophisticated data analysis and strong compliance and monitoring, the Fraud Prevention & Recovery Unit identifies outlier provider practice patterns, completes record reviews, and determines root causes. In the course of investigation, the Unit evaluates utilization trends and medical necessity, determines whether services were rendered as billed and accurately coded, and assures that services meet accepted professional standards of care. Based upon the results of the investigative process, appropriate corrective actions are implemented. These actions include: provider education, recovery of funds, authorization or prior authorization, contract termination, and/or referrals to the client or state agency. DentaQuest is committed to the provision of "high quality and medically necessary treatment within the allocated financial resources". The Fraud Prevention and Recovery Department accomplishes this goal through compliance with DentaQuest's policies and procedures and proper management of the Fraud Prevention and Recovery program. Proper management of the program ensures that our members, clients, and/or taxpayers are protected from inappropriate use of the allocated financial resources. DentaQuest requires that any suspicion or occurrence of fraud be reported to the plan, state or appropriate agency.

Our goals are as follows:

- Prevent fraud and abuse

- Stop fraud when it occurs
- Assist in the recovery of losses
- Assist in the apprehension and prosecution of the perpetrators
- Educate our employees, providers, clients and members to identify potential problems

Through rigorous data analysis methods, DentaQuest identifies providers whose practice patterns are outside of the norm for both over-utilization and under-utilization. DentaQuest conducts ongoing, retrospective review on a peer to peer comparison analysis:

- That the quality of services rendered are maintained at a high level and are in line with a practical and conservative oral health approach
- Services meet Medical Necessity Guidelines
- Reflect preventive practice patterns that increase the likelihood of improved oral health

FWA ALERT REPORT: DentaQuest has developed a three-part methodology: 1) a statistically valid methodology detecting utilization outliers among for key procedure code, code sets, ratios and payment patterns that have been demonstrated through statistical modeling, industry best-practice monitoring and our experience in network management to point to fraud, waste or abuse; 2) a predictive model applying machine learning techniques to actual results to assign each provider a fraud risk score based on dynamically adapting criteria, and 3) ongoing analyst-driven benchmarking and data mining to discover evolving behaviors and risk indicators. Outlier detection employs the Tukey method of using interquartile ranges that is also used by the OIG that is superior to standard deviation rules. Behavioral classification of providers zeroes in on outliers better by defining provider peer groups not only by their stated specialty but also by how they behave. The scoring model is a continuing collaboration with best-in-class data mining consultants who apply similar advanced modeling techniques to homeland security and postal fraud detection. Based on the cumulative results of DentaQuest's scoring, active data mining and passive statistical tests, providers may be subject to a spectrum of remedial actions including, but not limited to, a records audit, additional pre-payment clinical review requirements and/or educational reinforcement.

DentaQuest Investigative Process for Suspected Provider Fraud, Waste and Abuse:

The Fraud Prevention and Recovery Department in compliance with the applicable sections of Chapter 42 of the Code of Federal Regulations. See 42 CFR §456, will conduct an investigation upon detection of any potential provider/member fraud, waste and abuse. DentaQuest will send a written request for member records and these records are subject to a comprehensive administrative and clinical review in order to:

- Determine the sufficiency of the records to evaluate the utilization and quality of the services for which claims have been submitted
- Assure services were medically necessary

- Assure services were rendered as billed and accurately coded following the descriptors and nomenclature of the American Dental Association Current Dental Terminology
- Assure that all services meet the accepted professional standard of care

DentaQuest Actions Based on Results of Investigative Process:

At the completion of the investigative process if findings include, but are not limited to:

- Services not rendered;
- Upcoding
- Failure of documentation to meet medical necessity criteria
- Services do not meet the professionally recognized and accepted standards of care
- Violations of the Provider Agreement

DentaQuest can and will take the appropriate actions as determined by the results and findings of the investigations, these actions can include, but are not limited to:

- Provider education
- Recovery of funds
- Referral to DentaQuest Peer Review
- Corrective Action Plan
- Placement of the provider on the Utilization Oversight Program requiring authorization and/or required prior authorization of services
- Referral to the appropriate client or state agency
- Recommendation for termination from network participation

Credible Allegations of Fraud:

DentaQuest upon identification of a Credible Allegation of Fraud appropriately refers the case following all client specific contractual obligations.

9.00 Quality Improvement Program (Policies 200 Series)

DentaQuest currently administers a Quality Improvement Program modeled after National Committee for Quality Assurance (NCQA) standards. The NCQA standards are adhered to as the standards apply to dental managed care. The Quality Improvement Program includes, but is not limited to:

- Provider credentialing and recredentialing
- Member satisfaction surveys
- Provider satisfaction surveys
- Random chart audits

- Complaint monitoring and trending
- Peer review process
- Utilization Management and practice patterns
- Initial Site Reviews and Dental Record Reviews
- Quarterly Quality Indicator tracking (e.g., complaint rate, appointment waiting time, access to care, etc.)

Quality of care issues are handled under the areas listed in this section:

- Random chart audit
- A component of chart audits or record reviews is to review the quality of care of services rendered
- Quality-of-care issues are referred from CG&A to Utilization Review for further investigation
- Complaint monitoring and trending
- Peer Review Process
- Providers identified with patterns of quality-of-care issues are reviewed by the Committee.

A copy of DentaQuest's Quality Improvement Program is available upon request by contacting DentaQuest's Customer Service Department at 855-453-5286 or via email at: denelig.benefits@DentaQuest.com.

10.00 Credentialing (Policies 300 Series)

DentaQuest, in conjunction with Anthem, has the right to determine which dentists (DDS or DMD) it shall accept and continue as participating providers. The purpose of the credentialing plan is to provide a general guide for the acceptance, corrective action and termination of participating providers. DentaQuest considers each provider's potential contribution to the objective of providing effective and efficient dental services to members of Anthem.

DentaQuest's credentialing process adheres to National Committee for Quality Assurance (NCQA) guidelines as the guidelines apply to dentistry.

DentaQuest does not have the sole ability to accept and discipline participating providers, including restricting participation by a dental office or terminating a participating provider's written agreement. Anthem has the final decision-making power regarding network participation. DentaQuest will notify Anthem of all corrective actions enacted upon participating providers. IHCP has the ultimate decision when it comes to revoking a provider's participation with Indiana Medicaid.

To contract with DentaQuest, a provider must first become an IHCP provider. To review requirements on how to become an IHCP provider, please visit:

<https://www.in.gov/medicaid/providers/451.htm>

DentaQuest's Policies and Procedures outline all credentialing details and are available by contacting our Customer Service Department at 855-453-5286 or denelig.benefits@DentaQuest.com:

- Appeal of Credentialing Committee Recommendations (Policy 300.004):
If the Credentialing Committee recommends acceptance with restrictions or the denial of an application, the Committee will offer the applicant an opportunity to appeal the recommendation. The applicant must request a reconsideration/appeal in writing and the request must be received by DentaQuest within 30 days of the date the Committee gave notice of its decision to the applicant.

- Ongoing Monitoring (Policy 300.013).
- Recredentialing (Policy 300.009):
Network providers are recredentialled at least every 24 months.

11.00 The Member Record

Member records will be maintained in compliance with federal and state law and the provider's agreement with DentaQuest.

A. Organization

1. The record must have areas for documentation of the following information:
 - a. Registration data including a complete health history
 - b. Medical alert predominantly displayed inside chart jacket
 - c. Initial examination data
 - d. Radiographs
 - e. Periodontal and Occlusal status
 - f. Treatment plan/alternative treatment plan
 - g. Progress notes to include diagnosis, preventive services, treatment rendered, and medical/dental consultations
 - h. Miscellaneous items (correspondence, referrals, and clinical laboratory reports)
2. The design of the record must provide the capability or periodic update, without the loss of documentation of the previous status, of the following information:
 - a. Health history
 - b. Medical alert
 - c. Examination/recall data
 - d. Periodontal status
 - e. Treatment plan
3. The design of the record must ensure that all permanent components of the record are attached or secured within the record.
4. The design of the record must ensure that all components must be readily identified to the member (i.e., member name and identification number on each page).
5. The organization of the record system must require that individual records be assigned to each member.

B. Content – the member record must contain the following:

1. Adequate documentation of registration information which requires entry of these items:
 - a. Member's first and last name
 - b. Date of birth
 - c. Sex
 - d. Address
 - e. Telephone number
 - f. Name and telephone number of the person to contact in case of emergency

2. An adequate health history that requires documentation of these items:
 - a. Current medical treatment
 - b. Significant past illnesses
 - c. Current medications
 - d. Drug allergies
 - e. Hematologic disorders
 - f. Cardiovascular disorders
 - g. Respiratory disorders
 - h. Endocrine disorders
 - i. Communicable diseases
 - j. Neurologic disorders
 - k. Signature and date by patient
 - l. Signature and date by reviewing dentist
 - m. History of alcohol and/or tobacco usage including smokeless tobacco
3. An adequate update of health history at subsequent recall examinations which requires documentation of these items:
 - a. Significant changes in health status
 - b. Current medical treatment
 - c. Current medications
 - d. Dental problems/concerns
 - e. Signature and date by reviewing dentist
4. A conspicuously placed medical alert inside the chart jacket that documents highly significant terms from health history. These items are:
 - a. Health problems which contraindicate certain types of dental treatment
 - b. Health problems that require precautions or pre-medication prior to dental treatment
 - c. Current medications that may contraindicate the use of certain types of drugs or dental treatment
 - d. Drug sensitivities
 - e. Infectious diseases that may endanger personnel or other patients
5. Adequate documentation of the initial clinical examination which is dated and requires descriptions of findings in these items:
 - a. Blood pressure (recommended)
 - b. Head/neck examination
 - c. Soft tissue examination
 - d. Periodontal assessment
 - e. Occlusal classification
 - f. Dentition charting
6. Adequate documentation of the patient's status at subsequent periodic/recall examinations which is dated and requires descriptions of changes/new findings in these items:
 - a. Blood pressure (recommended)
 - b. Head/neck examination
 - c. Soft tissue examination
 - d. Periodontal assessment
 - e. Dentition charting

7. Radiographs which are:
 - a. Identified by patient name
 - b. Dated
 - c. Designated by patient's left and right side
 - d. Mounted (if intraoral films)
8. An indication of the patient's clinical problems/diagnosis.
9. Adequate documentation of the treatment plan (including any alternate treatment options) that specifically describes all the services planned for the patient by entry of these items:
 - a. Procedure
 - b. Localization (area of mouth, tooth number, surface)
10. Adequate documentation of the periodontal status, if necessary, which is dated and requires charting of the location and severity of these items:
 - a. Periodontal pocket depth
 - b. Furcation involvement
 - c. Mobility
 - d. Recession
 - e. Adequacy of attached gingiva
 - f. Missing teeth
11. An adequate documentation of the member's oral hygiene status and preventive efforts which requires entry of these items:
 - a. Gingival status
 - b. Amount of plaque
 - c. Amount of calculus
 - d. Education provided to the patient
 - e. Patient receptiveness/compliance
 - f. Recall interval
 - g. Date
12. An adequate documentation of medical and dental consultations within and outside the practice which requires entry of these items:
 - a. Provider to whom consultation is directed
 - b. Information/services requested
 - c. Consultant's response
13. Adequate documentation of treatment rendered which requires entry of these items:
 - a. Date of service/procedure
 - b. Description of service, procedure and observation. Documentation in treatment record must contain documentation to support the level of American Dental Association Current Dental Terminology code billed as detailed in the nomenclature and descriptors. Documentation must be written on a tooth by tooth basis for a per tooth code, on a quadrant basis for a quadrant code and on a per arch basis for an arch code.
 - c. Type and dosage of anesthetics and medications given or prescribed

- d. Localization of procedure/observation (tooth #, quadrant etc.)
 - e. Signature of the provider who rendered the service
14. Adequate documentation of the specialty care performed by another dentist that includes:
- a. Member examination
 - b. Treatment plan
 - c. Treatment status

C. Compliance

1. The member record has one explicitly defined format that is currently in use.
2. There is consistent use of each component of the member record by all staff.
3. The components of the record that are required for complete documentation of each member's status and care are present.
4. Entries in the records are legible.
5. Entries of symbols and abbreviations in the records are uniform, easily interpreted and are commonly understood in the practice.

12.00 Patient Recall/ Preventative Treatment Notification System Requirements

A. Recall/ Preventative Treatment Notification System Requirement

Each participating DentaQuest office is required to maintain and document a formal system for member retreatment notification. The system can utilize either written or phone contact. Any system should encompass routine patient checkups, cleaning appointments, follow-up treatment appointments, and missed appointments for any health plan enrollee that has sought dental treatment.

If a written process is utilized, the following language is suggested for missed appointments:

- "We missed you when you did not come for your dental appointment on month/date. Regular checkups are needed to keep your teeth healthy."
- "Please call to reschedule another appointment. Call us ahead of time if you cannot keep the appointment. Missed appointments are very costly to us. Thank you for your help."

B. Office Compliance Verification Procedures

- In conjunction with its office claim audits described in section 4, DentaQuest will measure compliance with the requirement to maintain a patient recall system.
- DentaQuest providers are expected to meet minimum standards with regards to appointment availability.
- Anthem members:
 - Urgent care must be available within 24 hours.
 - Emergency care must be available within 24 hours.

- Routine care must be available within 21 days.

Follow-up appointments must be scheduled within 30 days of the present treatment date, as appropriate.

13.00 Radiology Requirements

Note: Please refer to Benefit Tables for radiograph benefit limitations.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services, Center for Devices and Radiological Health. These guidelines were developed in conjunction with the Food and Drug Administration.

A. Radiographic Examination of the New Patient

1. Child – primary dentition

The Panel recommends posterior bitewing radiographs for a new member, with a primary dentition and closed proximal contacts.

2. Child – transitional dentition

The Panel recommends an individualized periapical/occlusal examination with posterior bitewings OR a panoramic radiograph and posterior bitewings, for a new patient with a transitional dentition.

3. Adolescent – permanent dentition prior to the eruption of the third molars

The Panel recommends an individualized radiographic examination consisting of selected periapicals with posterior bitewings for a new adolescent member.

4. Adult – dentulous

The Panel recommends an individualized radiographic examination consisting of selected periapicals with posterior bitewings for a new dentulous adult member.

5. Adult – edentulous

The Panel recommends a full-mouth intraoral radiographic survey OR a panoramic radiograph for the new edentulous adult member.

B. Radiographic Examination of the Recall Patient

1. Patients with clinical caries or other high-risk factors for caries

a. Child – primary and transitional dentition

The Panel recommends that posterior bitewings be performed at intervals of 6–12 months for those children with clinical caries or who are at increased risk for the development of caries in either the primary or transitional dentition.

b. Adolescent

The Panel recommends that posterior bitewings be performed at intervals of 6–12 months for adolescents with clinical caries or who are at increased risk for the development of caries.

- c. Adult – dentulous

The Panel recommends that posterior bitewings be performed at intervals of 6–12 months for adults with clinical caries or who are at increased risk for the development of caries.
 - d. Adult – edentulous

The Panel found that an examination for occult disease in this group cannot be justified on the basis of prevalence, morbidity, mortality, radiation dose and cost. Therefore, the Panel recommends that no radiographs be performed for edentulous recall members without clinical signs or symptoms.
2. Patients with no clinical caries and no other high risk factors for caries
- a. Child – primary dentition

The Panel recommends that posterior bitewings be performed at intervals of 12–24 months for children with a primary dentition with closed posterior contacts that show no clinical caries and are not at increased risk for the development of caries.
 - b. Adolescent

The Panel recommends that posterior bitewings be performed at intervals of 12–24 months for members with a transitional dentition who show no clinical caries and are not at an increased risk for the development of caries.
 - c. Adult – dentulous

The Panel recommends that posterior bitewings be performed at intervals of 24–36 months for dentulous adult members who show no clinical caries and are not at an increased risk for the development of caries.
3. Patients with periodontal disease, or a history of periodontal treatment for child – primary and transitional dentition, adolescent and dentulous adult

The Panel recommends an individualized radiographic survey consisting of selected periapicals and/or bitewing radiographs of areas with clinical evidence or a history of periodontal disease (except nonspecific gingivitis).

4. Growth and Development Assessment

a. Child – Primary Dentition

The panel recommends that prior to the eruption of the first permanent tooth, no radiographs be performed to assess growth and development at recall visits in the absence of clinical signs or symptoms.

b. Child – Transitional Dentition

The Panel recommends an individualized Periapical/Occlusal series OR a Panoramic Radiograph to assess growth and development at the first recall visit for a child after the eruption of the first permanent tooth.

c. Adolescent

The Panel recommends that for the adolescent (age 16–19 years of age) recall patient, a single set of periapicals of the wisdom teeth OR a panoramic radiograph.

d. Adult

The Panel recommends that no radiographs be performed on adults to assess growth and development in the absence of clinical signs or symptoms.

14.00 Health Guidelines – Ages 0-18 Years

NOTE: Please refer to benefit tables for benefits and limitations.

**Recommendations for Preventive Pediatric Dental Care (AAPD Reference Manual 2002-2003)
Periodicity and Anticipatory Guidance Recommendations (AAPD/ADA/AAP guidelines)**

Periodicity Recommendations					
Age ¹	Infancy 6–12 Months	Late Infancy 12–24 Months	Preschool 2–6 Years	School Aged 6–12 Years	Adolescence 12–18 Years
Oral Hygiene Counseling ²	Parents/ guardians/ caregivers	Parents/ guardians/ caregivers	Patient/parents/ guardians/ caregivers	Patient/ parents/ caregivers	Patient
Injury, Prevention Counseling ³	•	•	•	•	•
Dietary Counseling ⁴	•	•	•	•	•
Counseling for non- nutritive habits ⁵	•	•	•	•	•
Fluoride Supplementation ^{6,7}	•	•	•	•	•
Assess oral growth and development ⁸	•	•	•	•	•
Clinical oral exam	•	•	•	•	•
Prophylaxis and topical fluoride treatment ⁹		•	•	•	•
Radiographic assessment ¹⁰			•	•	•
Pit and Fissure Sealants			If indicated on primary molars	First permanent molars as soon as possible after eruption	Second permanent molars and appropriate premolars as soon as possible after eruption
Treatment of dental disease	•	•	•	•	•
Assessment and treatment of developing malocclusion		•	•	•	•
Substance abuse counseling				•	•
Assessment and/or removal of third molars					•
Referral for regular periodic dental care					•
Anticipatory guidance ¹¹	•	•	•	•	•

1. First examination at the eruption of the first tooth and no later than 12 months.
2. Initially, responsibility of parent; as child develops jointly with parents, then when indicated, only by child.
3. Initially play objects, pacifiers, car seats; then when learning to walk; sports, routine playing and intraoral/perioral piercing.
4. Diet: Avoid refined carbohydrates; frequency of snacking.

5. At first discuss need for additional sucking; digits vs. pacifiers; then the need to wean from habit before eruption of a permanent incisor.
6. As per American Academy of Pediatrics/American Dental Association guidelines and the water source.
7. Up to at least 16 years.
8. By clinical examination.
9. Especially for children at high risk for caries and periodontal disease.
10. As per AAPD Guideline on Prescribing Dental Radiographs.
11. Appropriate discussion and counseling should be an integral part of each visit for care.

15.00 Clinical Criteria

The criteria outlined in DentaQuest's Provider Office Reference Manual are based around procedure codes as defined in the American Dental Association's Code Manuals and Indiana Medicaid's Medical Policy Manual, IHCP Bulletins and Banners, Indiana Administrative Code (IAC), and Indiana Code (IC). Documentation requests for information regarding treatment using these codes are determined by generally accepted dental standards for authorization, such as radiographs, periodontal charting, treatment plans, or descriptive narratives.

These criteria were formulated from information gathered from practicing dentists, dental schools, ADA clinical articles and guidelines, insurance companies, and other dental-related organizations. These criteria and policies must meet and satisfy specific state and health plan requirements as well. They are designed as *guidelines* for authorization and payment decisions and *are not intended to be all-inclusive or absolute*. Additional narrative information is appreciated when there may be a special situation.

We hope that the enclosed criteria will provide a better understanding of the decision-making process for reviews. We also recognize that "local community standards of care" may vary from region to region and will continue our goal of incorporating generally accepted criteria that will be consistent with both the concept of local community standards and the current ADA concept of national community standards. Your feedback and input regarding the constant evolution of these criteria is both essential and welcome. DentaQuest shares your commitment and belief to provide quality care to members and we appreciate your participation in the program.

Please remember these are generalized criteria. Services described may not be covered in your particular program. In addition, there may be additional program specific criteria regarding treatment. Therefore you are required to review and become familiar with the "Benefits Covered" section before providing any treatment.

15.01 Criteria for Dental Extractions

Dental extractions do not require authorization.

Criteria:

The prophylactic removal of asymptomatic teeth or teeth exhibiting no overt clinical pathology (for orthodontics) may be covered subject to consultant review.

- The removal of primary teeth whose exfoliation is imminent does not meet criteria.

15.02 Criteria for Endodontics

Please reference Exhibits A-H to determine which ADA codes are covered and require authorization. Not all procedures require authorization.

Documentation needed to adjudicate a claim:

- Sufficient and appropriate radiographs, to be in the member's records, clearly showing the adjacent and opposing teeth (if present) and a pre-operative radiograph of the tooth to be treated; bitewings, periapicals or panorex. A dated post-operative radiograph must be submitted for review for payment.

- Treatment rendered under emergency conditions, when authorization is not possible, will still require that appropriate radiographs clearly showing the adjacent and opposing teeth, pre-operative radiograph and dated post-operative radiograph of the tooth treated with the claim for retrospective review for payment. In cases where pathology is not apparent, a written narrative justifying treatment is required.

Criteria:

Root canal therapy is performed in order to maintain teeth that have been damaged through trauma or carious exposure.

Root canal therapy must meet the following criteria:

- Fill should be sufficiently close to the radiological apex to ensure that an apical seal is achieved, unless there is a curvature or calcification of the canal that limits the dentist's ability to fill the canal to the apex.
- Fill must be properly condensed/obturated. Filling material does not extend excessively beyond the apex.

Authorizations for root canal therapy will not meet criteria if:

- Gross periapical or periodontal pathosis is demonstrated radiographically (caries subcrestal or to the furcation, deeming the tooth non-restorable).
- The general oral condition does not justify root canal therapy due to loss of arch integrity.
- Root canal therapy is for third molars, unless they are an abutment for a partial denture.
- Tooth does not demonstrate 50% bone support.
- Root canal therapy is in anticipation of placement of an overdenture.
- A filling material not accepted by the Federal Food and Drug Administration (e.g., Sargenti filling material) is used.

Other Considerations

- Root canal therapy for permanent teeth includes diagnosis, extirpation of the pulp, shaping and enlarging the canals, temporary fillings, filling and obliteration of root canal(s), and progress radiographs, including a root canal fill radiograph.
- In cases where the root canal filling does not meet DentaQuest's treatment standards, DentaQuest can require the procedure to be redone at no additional cost. Any reimbursement already made for an inadequate service may be recouped after DentaQuest reviews the circumstances.

15.03 Criteria for Resin and Stainless Steel Crowns

Authorization is not required for Resin and Stainless Steel Crowns. The following criteria apply for primary or permanent teeth:

Criteria:

In general, criteria for stainless steel crowns will be met only for teeth needing multi-surface restorations where amalgams and other materials have a poor prognosis.

- Permanent molar teeth must have pathologic destruction to the tooth by caries or trauma, and should involve four or more surfaces and two or more cusps.
- Permanent bicuspid teeth must have pathologic destruction to the tooth by caries or trauma, and should involve three or more surfaces and at least one cusp.
- Permanent anterior teeth must have pathologic destruction to the tooth by caries or trauma, and should involve four or more surfaces and at least 50% of the incisal edge.
- Primary molars must have pathologic destruction to the tooth by caries or trauma, and should involve two or more surfaces or substantial occlusal decay resulting in an enamel shell.
- For primary teeth, evidence/ necessity of pulpotomy/ pulpectomy.

An authorization for a crown on a permanent tooth following root canal therapy must meet the following criteria:

- Request should include a dated post-endodontic radiograph.
- Tooth should be filled sufficiently close to the radiological apex to ensure that an apical seal is achieved, unless there is a curvature or calcification of the canal that limits the dentist's ability to fill the canal to the apex.
- The filling must be properly condensed/obtured. Filling material does not extend excessively beyond the apex.

To meet criteria, a crown must be opposed by a tooth or denture in the opposite arch or be an abutment for a partial denture.

- The patient must be free from active and advanced periodontal disease.
- The permanent tooth must be at least 50% supported in bone.

Authorization and treatment using stainless steel crowns will not meet criteria if:

- A lesser means of restoration is possible.
- Tooth has subosseous and/or furcation caries.
- Tooth has advanced periodontal disease.
- Tooth is a primary tooth with exfoliation imminent.
- Crowns are being planned to alter vertical dimension.

15.04 Criteria for Authorization of Operating Room (OR) Cases

Documentation needed for authorization of procedure:

- Treatment plan (prior-authorized, if necessary).
- Narrative describing medical necessity for OR.

Except in the case of an emergency, Operating room (OR) cases require prior authorization. For details on emergency services, please see section 3.02 B. For details on participating hospitals, please see section 4.00.

Provider should submit services to DentaQuest for authorization. Upon receipt of approval from DentaQuest, provider should contact Health Plan for facility authorization at the number below.

Anthem: HIP and Hoosier Healthwise 866-408-6131
and Hoosier Care Connect 844-284-1797

Criteria:

Operating room cases will be prior authorized (for procedures covered by MCE) if the following is (are) involved:

- In accordance with IHCP policy if one of the following admission indicators is present:
 - Mental incapacitation such that the recipient's ability to cooperate with procedures is impaired, including cognitive disability, organic brain disease, and behavioral problems associated with uncooperative, but otherwise healthy children
 - Severe physical disorders affecting the tongue or jaw movements
 - Seizure disorders
 - Significant psychiatric disorders resulting in impairment of the recipient's ability to cooperate with procedures
 - Previously demonstrated idiosyncratic or severe reactions to IV sedation medication
 - The need for oral surgery, listed in *405 IAC 5-19-17*; or in extreme cases of facial trauma, pathology, or deformity
 - Periodontal surgery only in cases of drug-induced periodontal hyperplasia
 - Elective oral surgery when recipient is unable to cooperate with or tolerate the procedure
- Young children requiring extensive operative procedures such as multiple restorations, treatment of multiple abscesses, and/or oral surgical procedures if authorization documentation indicates that in-office treatment (nitrous oxide or I.V. sedation) is not appropriate and hospitalization is not solely based upon reducing, avoiding or controlling apprehension, or upon provider or member convenience.
- Members requiring extensive dental procedures and classified as American Society of Anesthesiologists (ASA) Class III (patient with uncontrolled disease or significant systemic disease; for recent MI, recent stroke, new chest pain, etc.) and ASA Class IV (patient with severe systemic disease that is a constant threat to life).
- Medically compromised patients whose medical history indicates that the monitoring of vital signs or the availability of resuscitative equipment is necessary during extensive dental procedures.
- Member requiring extensive dental procedures with a medical history of uncontrolled bleeding, severe cerebral palsy, or other medical condition that renders in-office treatment not medically appropriate.

- Members requiring extensive dental procedures who have documentation of psychosomatic disorders that require special treatment.
- Cognitively disabled individuals requiring extensive dental procedures whose prior history indicates hospitalization is appropriate.

15.05 Criteria for Removable Prosthodontics (Full and Partial Dentures)

Documentation needed for authorization of procedure:

- Treatment plan.
- Appropriate radiographs clearly showing the adjacent and opposing teeth must be submitted for authorization review: bitewings, periapicals or panorex.
- Treatment rendered without necessary authorization will still require appropriate radiographs clearly showing the adjacent and opposing teeth be submitted with the claim for review for payment.

Criteria:

Prosthetic services are intended to restore oral form and function due to premature loss of permanent teeth that would result in significant occlusal dysfunction.

- A denture is determined to be an initial placement if the member has never worn a prosthesis. This does not refer to just the time a patient has been receiving treatment from a certain provider.
- Partial dentures are covered only for recipients with good oral health and hygiene, good periodontal health (AAP Type I or II), and a favorable prognosis where continuous deterioration is not expected.
- Partial dentures are covered for members only when there are fewer than eight posterior teeth in occlusion. Four maxillary and four mandibular teeth in functional contact with each other are considered adequate for functional purposes.
- Radiographs must show no untreated cavities or active periodontal disease in the abutment teeth, and abutments must be at least 50% supported in bone.
- As part of any removable prosthetic service, dentists are expected to instruct the patient in the proper care of the prosthesis.
- In general, if there is a pre-existing removable prosthesis (includes partial and full dentures), it must be at least 6 years old and unserviceable to qualify for replacement.
- The replacement teeth should be anatomically full-sized teeth.

Authorizations for Removable prosthesis will not meet criteria:

- If parenteral/enteral is the member's primary source of nutrients unless dentist submits a plan of care that indicates dentures or partials are needed to wean the member from the nutritional supplements.
- Anterior tooth replacement is not considered medically necessary by IHCP.
- If there is a pre-existing prosthesis which is not at least 6 years old and unserviceable.
- If good oral health and hygiene, good periodontal health, and a favorable prognosis are not present.
- If there are untreated cavities or active periodontal disease in the abutment teeth.
- If abutment teeth are less than 50% supported in bone.

- If the recipient cannot accommodate and properly maintain the prosthesis (i.e., gag reflex, potential for swallowing the prosthesis, severely handicapped).
- If the recipient has a history or an inability to wear a prosthesis due to psychological or physiological reasons.
- If a partial denture, less than 6 years old, is converted to a temporary or permanent complete denture.
- If extensive repairs are performed on marginally functional partial dentures, or when a new partial denture would be better for the health of the recipient. However, adding teeth and/or a clasp to a partial denture is a covered benefit if the addition makes the denture functional.

Criteria:

- If there is a pre-existing prosthesis, it must be at least 6 years old and unserviceable to qualify for replacement.
- Adjustments, repairs and relines are included with the denture fee within the first six months after insertion. After that time has elapsed:
 - Adjustments will be reimbursed at one per calendar year per denture.
 - Repairs will be reimbursed at two repairs per denture per year, with five total denture repairs per five years.
 - Relines will be reimbursed once per denture every 12 months.
 - A new prosthesis will not be reimbursed for within 24 months of reline or repair of the existing prosthesis unless adequate documentation has been presented that all procedures to render the denture serviceable have been exhausted.
 - Replacement of lost, stolen, or broken dentures less than six years of age usually will not meet criteria for pre-authorization of a new denture.
 - The use of Preformed Dentures with teeth already mounted (that is, teeth set in acrylic before the initial impression) cannot be used for the fabrication of a new denture.
- All prosthetic appliances shall be inserted in the mouth and adjusted before a claim is submitted for payment. At a minimum, this means that a claim for a removable prosthetic appliance should never be submitted prior to the date of service for any extractions necessary for the placement of the prosthesis. This claim submission requirement is also applicable to immediate dentures, since it is anticipated that adjustments to immediate dentures will be required after the date of service of the extractions and initial denture placement.
- When billing for partial and complete dentures, dentists must list the date that the dentures or partials were inserted as the date of service. Recipients must be eligible on that date in order for the denture service to be covered.

15.06 Criteria for the Excision of Bone Tissue

To ensure the proper seating of a removable prosthetic (partial or full denture) some treatment plans may require the removal of excess bone tissue prior to the fabrication of the prosthesis. Clinical guidelines have been formulated for the dental consultant to ensure that the removal of tori (mandibular and palatal) is an appropriate course of treatment prior to prosthetic treatment.

Code D7471 (CDT) is related to the removal of the lateral exostosis. This code is subject to authorization and may be reimbursed when submitted in conjunction with a treatment plan that includes removable prosthetics. These determinations will be made by the appropriate dental specialist/consultant.

Documentation needed for authorization of procedure:

- Appropriate radiographs and/or intraoral photographs/bone scans which clearly identify the lateral exostosis must be submitted for authorization review; bitewings, periapicals or panorex.
- Treatment plan – includes prosthetic plan.
- Narrative of medical necessity, if appropriate.
- Study model or photo clearly identifying the lateral exostosis (es) to be removed.

15.07 Criteria for the Determination of a Non-Restorable Tooth

In the application of clinical criteria for benefit determination, dental consultants must consider the overall dental health. A tooth that is determined to be non-restorable may be subject to an alternative treatment plan.

A tooth may be deemed non-restorable if one or more of the following criteria are present:

- The tooth presents with greater than a 75% loss of the clinical crown.
- The tooth has less than 50% bone support.
- The tooth has subosseous and/or furcation caries.
- The tooth is a primary tooth with exfoliation imminent.
- The tooth apex is surrounded by severe pathologic destruction of the bone.
- The overall dental condition (i.e., periodontal) of the patient is such that an alternative treatment plan would be better suited to meet the patient's needs.

15.08 Criteria for General Anesthesia and Intravenous (IV) Sedation

Please reference Exhibits A-H to determine which ADA codes require authorization review. Not all procedures require authorization.

Documentation for authorization of procedure:

Providers must submit a treatment plan, as documented on an ADA claim form, and one or both of the following:

- Additional units beyond six units are subject to review for medical necessity. A time-oriented anesthesia record is the preferred method of documentation
- Narrative describing medical necessity for general anesthesia or I.V. sedation for members age 21 and over.

Treatment rendered under emergency conditions, when authorization is not possible, will still require the documentation as provided above.

Criteria:

Requests for general anesthesia or I.V. sedation will be authorized (for procedures covered by health plan) if any of the following criteria are met:

Extensive or complex oral surgical procedures such as:

- Impacted wisdom teeth.
- Surgical root recovery from maxillary antrum.
- Surgical exposure of impacted or unerupted cuspids.
- Radical excision of lesions in excess of 1.25 cm.

And/or one of the following medical conditions:

- Medical condition(s) which require monitoring (e.g. cardiac problems, severe hypertension).
- Underlying complex medical condition (cerebral palsy, epilepsy, intellectual disability, Down's syndrome) which would render member non-compliant.
- Documented failed sedation or a condition where severe periapical infection would render local anesthesia ineffective.
- Members 3 years old and younger with extensive procedures to be accomplished.

15.9 Criteria for Periodontal Treatment

Please reference Exhibits A-H to determine which ADA codes require authorization review. Not all procedures require authorization.

Documentation needed for authorization of procedure:

- Radiographs – periapicals or bitewings preferred. All radiographs must be of sufficient diagnostic quality to demonstrate the required clinical condition for the CDT code being submitted. Electronic submission of radiographs is preferred. See Section 3.04 - Electronic Attachments for details on submitting documents and radiographs electronically.
- Complete periodontal charting with AAP Case Type.
- Treatment plan.

Periodontal scaling and root planing, per quadrant involves instrumentation of the crown and root surfaces of the teeth to remove plaque and calculus from these surfaces. It is indicated for patients with periodontal disease and is therapeutic, not prophylactic in nature. Root planing is the definitive procedure designed for the removal of cementum and dentin that is rough, and/or permeated by calculus or contaminated with toxins or microorganisms. Some soft tissue removal occurs. This procedure may be used as a definitive treatment in some stages of periodontal disease and as a part of pre-surgical procedures in others.

It is anticipated that this procedure would be requested in cases of severe periodontal conditions (i.e., late Type II, III, IV periodontitis) where definitive comprehensive root planing requiring local/regional block anesthesia and several appointments would be indicated.

From the American Academy of Periodontology (AAP) Policy on Scaling and Root Planing:

“Periodontal scaling is a treatment procedure involving instrumentation of the crown and root surfaces of the teeth to remove plaque, calculus, and stains from these surfaces. It is performed

on patients with periodontal disease and is therapeutic, not prophylactic, in nature. Periodontal scaling may precede root planing, which is the definitive, meticulous treatment procedure to remove cementum and/or dentin that is rough and may be permeated by calculus, or contaminated with toxins or microorganisms. Periodontal scaling and root planing are arduous and time consuming. They may need to be repeated and may require local anesthetic.”

Criteria:

- Periodontal charting indicating abnormal pocket depths in multiple sites.
- Additionally, it is required that at least one of the following two clinical conditions must be radiographically demonstrated:
 - 1) Radiographic evidence of root surface calculus. Note: If calculus is subgingival, but radiographic evidence shows the calculus is limited to the coronal surface(s) of the tooth or teeth, then the criteria for the presence of calculus on the root surface has not been established and such claims would not qualify for reimbursement of scaling and root planing codes D4341 or D4342.
 - 2) Radiographic evidence of noticeable loss of bone support. Radiographs must clearly demonstrate a minimum of 2.5 mm bone loss as measured from the cemento-enamel junction (CEJ) to the alveolar bone.
- The number of teeth in a quadrant demonstrating the required criteria should be consistent with the definition of the CDT code being submitted.
 - CDT code D4341 (periodontal scaling and root planing - four or more teeth per quadrant) would require that all four teeth be clearly visualized in radiographs submitted and all four teeth would need to meet the criteria stated above.
 - CDT code D4342 (periodontal scaling and root planing – one to three teeth per quadrant) would require that only one tooth be visible in radiographs submitted and only one tooth would need to meet the criteria stated above.

15.10 Criteria for Orthodontia

Orthodontic procedures are covered only for members younger than 21 years old.

DentaQuest requires a prior authorization for all orthodontic services.

Appliances, retainers, and repair or replacement of retainers are included in the fee for the comprehensive treatment and may not be separately billed if comprehensive treatment is rendered.

Billing:

Patients are expected to continue treatment with the same practitioner for the period of treatment time that is prior authorized.

Discontinuing Treatment with Practitioner and Beginning with Another:

In the unlikely event that the patient must discontinue treatment with one practitioner and begin treatment with another practitioner, the practitioner continuing the treatment must submit a new prior authorization request. The first practitioner must refund part of the reimbursement to DentaQuest. Generally, one-third of the reimbursement is for the evaluation and treatment plan, and two-thirds of the reimbursement is for the actual treatment. Based upon the time remaining in the treatment rendered by a new practitioner, the first practitioner must prorate the amount to be refunded to the program.

- D8680 – Orthodontic retention-removal of appliances, construction and placement of retainer(s) is not covered and is included in the reimbursement for orthodontic treatment
- D8691 – Repair of orthodontic appliance
- D8692 – Replacement of lost or broken retainer are also not covered. These services are included in the reimbursement for orthodontic treatments and will not be separately reimbursed.

Criteria:

DentaQuest uses criteria established by the American Association of Orthodontists (AAO) for determining medical necessity for orthodontic treatment. PA requests must document medical necessity based on AAO criteria.

Members meet the criteria for medical necessity for orthodontic care when it is part of a case involving treatment of craniofacial anomalies, malocclusion caused as the result of trauma, or a severe malocclusion or craniofacial disharmony that includes, but is not limited to:

- Overjet equal to or greater than 9 mm
- Reverse overjet equal to or greater than 3.5 mm
- Posterior crossbite with no functional occlusal contact
- Lateral or anterior open bite equal to or greater than 4 mm
- Impinging overbite with either palatal trauma or mandibular anterior gingival trauma
- One or more impacted teeth with eruption that is impeded (excluding third molars)
- Defects of cleft lip and palate or other craniofacial anomalies or trauma
- Congenitally missing teeth (extensive hypodontia) of at least one tooth per quadrant (excluding third molars)

The member's diagnosis must include information descriptive of facial and soft tissue, skeletal, dental/occlusal, functional, and applicable medical or other conditions. Diagnostic records required to establish medical necessity include at a minimum:

- Panoramic radiograph
- Cephalometric radiograph
- Intraoral and extraoral photographs

Members with malocclusions associated with a craniofacial anomaly **must** be diagnosed by a member of a craniofacial anomalies team recognized and endorsed by the American Cleft Palate-Craniofacial Association (ACPA), presumably an orthodontist, and treated by an orthodontist who may or may not be a member of a recognized craniofacial anomalies team. Members with malocclusions *not* associated with a craniofacial anomaly could be diagnosed and treated by an orthodontist who may or may not be a member of a recognized craniofacial anomalies team. The treating provider is not required to be associated with a recognized craniofacial anomalies team.

Phased orthodontic treatment:

- **Limited orthodontic treatment** is defined as “orthodontic treatment with a limited objective, not involving the entire dentition.” It may be directed at the only existing problem, or at only one aspect of a larger problem in which a decision is made to defer or forego more comprehensive treatment. There is a code for limited treatment in each of the four stages of dental development. An example might be treatment to aid in the alignment of one tooth or closing a space. **DentaQuest does not accept limited orthodontic treatment as part of a multiphase treatment plan, as these codes indicate a specific, limited objective.** Limited orthodontic treatment codes are as follows:
 - D8010 – Limited orthodontic treatment of the primary dentition
 - D8030 – Limited orthodontic treatment of the adolescent dentition
 - D8040 – Limited orthodontic treatment of the adult dentition

- **Interceptive orthodontic treatment** is defined as treatment for procedures to lessen the severity or future effects of a malformation and to eliminate its cause. It can be considered an extension of preventive orthodontics that may include localized tooth movement. Such treatment may occur in the primary or transitional dentition. An example might be use of a palatal expander to correct a damaging one-sided crossbite. Interceptive orthodontic treatment codes are as follows:
 - D8050 – Interceptive orthodontic treatment of the primary dentition
 - D8020 – Interceptive orthodontic treatment of the transitional dentition

- **Comprehensive orthodontic treatment** is the treatment of the dentition as a whole. Treatment usually, but not always, uses fixed orthodontic appliances or braces. Comprehensive orthodontic treatment may incorporate more than one phase of treatment, with specific objectives at various stages of dentofacial development. For example, the use of an expander, partial fixed appliances, and a headgear may be stage one of a two-stage treatment. In this situation, placement of full-arch fixed appliances will generally be stage two of a two-stage phased treatment plan. Both phases fall under the category of comprehensive orthodontic treatment, the first in the transitional dentition and the second in the adolescent dentition. The comprehensive treatment codes include appliances, retainers, and repair or replacement of retainers; these codes may not be separately billed if comprehensive treatment is rendered. Comprehensive orthodontics may incorporate treatment phases focusing on specific objectives at various stages of dentofacial development. Comprehensive orthodontic treatment codes are as follows:
 - D8070 – Comprehensive orthodontic treatment of the transitional dentition
 - D8080 – Comprehensive orthodontic treatment of the adolescent dentition
 - D8090 – Comprehensive orthodontic treatment of the adult dentition

DentaQuest accepts PA requests for phased orthodontic treatment. The provider must submit a step-by-step treatment plan with the treatment phase and length of treatment specified. One PA is issued per phase of treatment. The PA lasts for the length of treatment specified. PA requests for limited, interceptive, or comprehensive orthodontic treatment are reviewed on a case-by-case basis. A PA request for removable or fixed-appliance therapy must show that the patient meets the criteria outlined in this policy and has a harmful habit in need of correction.

When providing multiphase treatment, DentaQuest does not accept limited orthodontic treatment codes as part of the treatment plan. By definition, limited orthodontic treatment has a specific, limited objective and is **not** part of a multiphase treatment approach. Interceptive orthodontic treatment codes should be billed as the first phase of a multiphase treatment plan and should set the stage for future phases of comprehensive care. Orthodontic treatment plans should utilize comprehensive orthodontic treatment codes as the second phase of a multiphase treatment plan and will account for the remaining duration of the orthodontic treatment.

When billing for multiple phases of orthodontic treatment, use the following guidance:

- **Phase 1** – Providers should use the most appropriate interceptive orthodontic treatment code (D8050 or D8020)
- **Phase 2** – Providers should use the most appropriate comprehensive orthodontic treatment code (D8070, D8080, or D8090).

DentaQuest will reimburse for a maximum of two phases of orthodontic treatment: a maximum of one interceptive phase and a maximum of one comprehensive phase. All requests for PA must include detail on time frames and expectations of both phases of treatment.

Documentation:

For orthodontic services, documentation must be maintained in the patient's dental or medical record. Records must be of sufficient quality to fully disclose and document the extent of

services provided to individuals receiving assistance under the provisions of HIP, Hoosier Care Connect or Hoosier Healthwise plans.

Providers shall maintain, for a period of three years from the date services are provided, such medical and/or other records, including x-rays, as are necessary to fully disclose and document the extent of the services. A copy of the claim form that has been submitted by the provider for reimbursement is not sufficient documentation, in and of itself, to comply with this requirement. Providers must maintain records which are independent of claims for reimbursement.

The provider must submit a step-wise treatment plan with the treatment phase and length of treatment specified. The prior authorization lasts for the length of treatment specified. DentaQuest expects that most patients who meet the criteria require comprehensive orthodontic treatment.

The Orthodontic Continuation of Care Submission Form can be found in APPENDIX A.

16.00 Continuity of Care

As members transition into the HIP, Hoosier Care Connect, and Hoosier Healthwise programs, their previously approved prior authorizations will follow them into the programs.

HIP – a new member's IHCP previous care authorizations will be approved for thirty calendar days from the member's enrollment in the HIP program from fee for service or when receiving members from another MCE. Any contracted or non-contracted, IHCP provider can submit claims for previous care authorizations during this 30-day time frame. Only DentaQuest contracted providers may submit claims with previously approved IHCP authorizations.

- When submitting claims, providers will need to type "Transition of Care" in box 35 on the ADA claim form (2012 version only)(or in the notes field for electronic submissions) and submit the IHCP previous care authorization as an attachment.

Hoosier Care Connect – A new member's IHCP previous care authorizations will be approved for 30 calendar days from the member's enrollment in the Hoosier Care Connect program from a fee for service program or when receiving members from another MCE. Any contracted or non-contracted, IHCP provider can submit claims for previous care authorizations during this 30-day time frame.

- When submitting claims, providers should indicate "Hoosier Care Connect Continuity of Care" in box 35 on the ADA claim form (2012 version only)(or in the notes field for electronic submissions) and submit the previous care authorization as an attachment.

Hoosier Healthwise – A new member's previous care authorizations will be approved for 30 calendar days from the member's enrollment in the Hoosier Healthwise program from a previous health plan. Any contracted or non-contracted, IHCP provider can submit claims for previous care authorizations during this 30-day time frame.

- From January 1, 2017, through March 31, 2017, DentaQuest will accept previous authorizations from the newly eligible member's previous health plan for 90 calendar days.
- As of April 1, 2017, DentaQuest will accept previous authorizations from the newly eligible member's previous health plan for 30 calendar days.
- Contracted or non-contracted IHCP providers should submit the previous care authorization as an attachment with the claim.

17.00 Member Co-payments

HIP State Plan Basic and HIP Regular Basic include a \$4 per category co-payment. Co-payments for outpatient dental services are assessed for each category, even if they are delivered by the same provider, at the same location, on the same date. When multiple services within one category are performed, only one co-payment can be assessed within that category per date of service.

Category:	Codes:	Copayment
Diagnostic	D0120 - D0486	\$0
Preventive	D1110 - D1999	\$0
Fillings and other basic restoratives	D2140 - D2394	\$4
Major restoratives	D2910- D2990	\$4
Endo	D3220 -D3430	\$4
Perio	D4210 - D4910	\$4
Dentures	D5110 - D5226, D5281	\$4
Prosthetic adjustments, repairs, rebase, relines	D5510 - D5761, D6930, D6980	\$4
Maxillofacial Prosthetics	D5951 - D5993	\$4
Oral Surgery	D7111 - D7999	\$4
Adjunctive	D9110 - D9920	\$4

The HIP Basic, HIP Plus, HIP State Plan Plus, Hoosier Care Connect and Hoosier Healthwise programs do not have a co-payment for dental services.

18.00 Early Periodic Screening, Diagnostic, and Treatment services (EPSDT)

Individuals in any HIP plan age 19 or 20 and Hoosier Care Connect or Hoosier Healthwise members' ages 0-20 are eligible for Early Periodic Screening, Diagnosis, and Treatment services (EPSDT). Providers should submit such services with an EPSDT designation to ensure prior authorization when required, adjudication and payment.

- When submitting claims, providers will need to type "EPSDT" in box 35 on the [ADA claim form (2012 version only)(or in the notes field for electronic submissions). Dental services covered for all 19 or 20 year old regardless of HIP plan, Hoosier Care Connect or Hoosier Healthwise members ages 0-20 are detailed in the Health Watch/ Early and Periodic Screening, Diagnosis, and Treatment in the Provider Reference Module at: <https://www.in.gov/medicaid/providers/files/modules/epsdt.pdf>

19.00 Interpretation Services

DentaQuest offers telephonic interpretation services for members or providers. If a member or provider would like to arrange for such services, they may contact DentaQuest's Customer Service Department at 855-453-5286.

20.00 Peer-to-Peer Call

A provider may request a Peer-to-Peer call with a DentaQuest dentist who reviews claims, any time he or she wants to understand the clinical basis of why an authorization or claim was denied.

The Peer-to-Peer discussion is limited to the clinical aspects of the claim and not administrative issues such as timely filing or member eligibility. During the call, the DentaQuest dentist can only discuss clinical information during the call and cannot reverse any denials during the call.

To schedule a peer-to-peer call, contact DentaQuest Customer Service, your Provider Engagement Representative, or schedule the call through the portal.

APPENDIX A

General Definitions: The following definitions apply to this Office Reference Manual:

- “DentaQuest” shall refer to DentaQuest, LLC
- "DentaQuest Service Area" shall be defined as the state of Indiana and contiguous geographic areas where out of state providers service HIP, Hoosier Care Connect or Hoosier Healthwise members.
- “Medically Necessary” means those Covered Services provided by a physician or other licensed practitioner of the healing arts within the scope of their practice under state law to prevent disease, disability and other adverse health conditions or their progression, or prolong life. In order to be Medically Necessary, the service or supply for medical illness or injury must be determined by plan or its designee in its judgment to be a Covered Service which is required and appropriate in accordance with the law, regulations, guidelines and accepted standards of medical practice in the community.
- “Managed Care Entity (MCE)” is an insurer, health maintenance organization or any other entity that is an organized system which combines the delivery and financing of health care and which provides basic health services to enrolled members for a fixed prepaid fee.
- "Provider" is a dentist who is contracted with DentaQuest, or is an IHCP attested provider.

Additional Resources that can be found on the DentaQuest Provider Portal:

Welcome to the DentaQuest provider forms and attachment resource page. To view this Office Reference Manual electronically and to log into our Provider Web Portal, please visit our website at www.DentaQuest.com. Once you have entered the website, click on the “Dentists” icon then select, Indiana. You will then select “Dentist Page” to view relevant HIP, Hoosier Care Connect and Hoosier Healthwise program information or “Login” to visit our Provider Web Portal page. You can login using your password and User ID for the Provider Web Portal and select the link “Document List” to access the following resources:

- Dental Claim Form
- Instructions for Dental Claim Form
- Recall Examination Form
- Authorization for Dental Treatment
- Electronic Funds Transfer Form
- Medical and Dental History
- Provider Change Form
- Request for Transfer of Records
- HIPAA Companion Guide

Comprehensive completion instructions for the ADA Dental Claim Form are found in Section 4 of the ADA Publication titled *CDT-2007/2008*. Five relevant extracts from that section follow:

GENERAL INSTRUCTIONS

- A. The form is designed so that the name and address (Item 3) of the third-party payer receiving the claim (insurance company/dental benefit plan) is visible in a standard #10 window envelope. Please fold the form using the 'tick-marks' printed in the margin.
- B. In the upper-right of the form, a blank space is provided for the convenience of the payer or insurance company, to allow the assignment of a claim or control number.
- C. All Items in the form must be completed unless it is noted on the form or in the following instructions that completion is not required.
- D. When a name and address field is required, the full name of an individual or a full business name, address and zip code must be entered.
- E. All dates must include the four-digit year.
- F. If the number of procedures reported exceeds the number of lines available on one claim form, the remaining procedures must be listed on a separate, fully completed claim form.

COORDINATION OF BENEFITS (COB)

When a claim is being submitted to the secondary payer, complete the form in its entirety and attach the primary payer's Explanation of Benefits (EOB) showing the amount paid by the primary payer. You may indicate the amount the primary carrier paid in the "Remarks" field (Item # 35).

NATIONAL PROVIDER IDENTIFIER (NPI)

49 and 54 NPI (National Provider Identifier): This is an identifier assigned by the Federal government to all providers considered to be HIPAA covered entities. Dentists who are not covered entities may elect to obtain an NPI at their discretion, or may be enumerated if required by a participating provider agreement with a third-party payer or applicable state law/regulation. An NPI is unique to an individual dentist (Type 1 NPI) or dental entity (Type 2 NPI), and has no intrinsic meaning. Additional information on NPI and enumeration can be obtained from the ADA's Internet Web Site: www.ada.org/goto/npi

ADDITIONAL PROVIDER IDENTIFIER

52A and 58 Additional Provider ID: This is an identifier assigned to the billing dentist or dental entity other than a Social Security Number (SSN) or Tax Identification Number (TIN). It is not the provider's NPI. The additional identifier is sometimes referred to as a Legacy Identifier (LID). LIDs may not be unique as they are assigned by different entities (e.g., third-party payer; Federal government). Some Legacy IDs have an intrinsic meaning.

PROVIDER SPECIALTY CODES

56A Provider Specialty Code: Enter the code that indicates the type of dental professional who delivered the treatment. Available codes describing treating dentists are listed below. The general code listed as 'Dentist' may be used instead of any other dental practitioner code.

Category / Description Code	Code
Dentist A dentist is a person qualified by a doctorate in dental surgery (D.D.S) or dental medicine (D.M.D.) licensed by the state to practice dentistry, and practicing within the scope of that license.	122300000X
General Practice	1223G0001X
Dental Specialty (see following list)	Various
Dental Public Health	1223D0001X

COMMENTS: _____

NOTE: The above form is intended to be a sample. DentaQuest is not mandating the use of this form. Please refer to state statutes for specific state requirements and guidelines.

Authorization for Dental Treatment

I hereby authorize Dr. _____ and his/her associates to provide dental services, prescribe, dispense and/or administer any drugs, medicaments, antibiotics, and local anesthetics that he/she or his/her associates deem, in their professional judgment, necessary or appropriate in my care.

I am informed and fully understand that there are inherent risks involved in the administration of any drug, medicament, antibiotic, or local anesthetic. I am informed and fully understand that there are inherent risks involved in any dental treatment and extractions (tooth removal). The most common risks can include, but are not limited to:

Bleeding, swelling, bruising, discomfort, stiff jaws, infection, aspiration, paresthesia, nerve disturbance or damage either temporary or permanent, adverse drug response, allergic reaction, cardiac arrest.

I realize that it is mandatory that I follow any instructions given by the dentist and/or his/her associates and take any medication as directed.

Alternative treatment options, including no treatment, have been discussed and understood. No guarantees have been made as to the results of treatment. A full explanation of all complications is available to me upon request from the dentist.

Procedure(s): _____

MEDICAL AND DENTAL HISTORY

Patient Name: _____ Date of Birth: _____

Address: _____

Why are you here today? _____

Are you having pain or discomfort at this time? Yes No

If yes, what type and where? _____

Have you been under the care of a medical doctor during the past two years? Yes No

Medical Doctor's Name: _____

Address: _____

Telephone: _____

Have you taken any medication or drugs during the past two years? Yes No

Are you now taking any medication, drugs, or pills? Yes No

If yes, please list medications: _____

Are you aware of being allergic to or have you ever reacted badly to any medication or substance?

Yes No

If yes, please list: _____

When you walk up stairs or take a walk, do you ever have to stop because of pain in your chest, shortness of breath, or because you are very tired? Yes No

Do your ankles swell during the day? Yes No

Do you use more than two pillows to sleep? Yes No

Have you lost or gained more than 10 pounds in the past year? Yes No

Do you ever wake up from sleep and feel short of breath? Yes No

Are you on a special diet? Yes No

Has your medical doctor ever said you have cancer or a tumor? Yes No

If yes, where? _____

Do you use tobacco products (smoke or chew tobacco)? Yes No

If yes, how often and how much? _____

Do you drink alcoholic beverages (beer, wine, whiskey, etc.)? Yes No

Do you have or have you had any disease, or condition not listed? Yes No

If yes, please list: _____

Indicate which of the following you have had, or have at present. Circle "Yes" or "No" for each item.

IN Orthodontic Continuation of Care Submission Form

Date: _____

MEMBER Name (First & Last):	Date of Birth:
Address:	City, State, Zip:
SSN of ID#:	Current Member Insurance Plan/Group#:
Initial Banding Date:	Member Insurance at time of Initial Banding:
Months of Active Treatment Completed:	Months of Active Treatment Remaining:

CHANGE IN PROVIDER AND/OR CHANGE IN MEMBER INSURANCE BETWEEN MEDICAID PLANS

- Member initiated treatment with a different Provider (non-affiliated) while covered by the same OR different Medicaid program/vendor.
Required for submission:
 - Completed ADA form for preauthorization.
 - Copy of original Medicaid Prior Authorization for Comprehensive Orthodontic Treatment (Prior Authorization from Medicaid program/vendor for Comprehensive Orthodontic Treatment approved prior to initiation of orthodontic treatment).

****If required information above is cannot be provided, the case will be reviewed as outlined below.***

CHANGE IN PROVIDER AND/OR CHANGE IN MEMBER INSURANCE FROM NON-MEDICAID TO MEDICAID

- Member initiated treatment while covered by a **NON-Medicaid** program/vendor (FFS or Commercial Insurance plan) OR Self-Pay and Member is now covered by a **Medicaid** program/vendor with the same OR different Provider.
Required for submission:
 - Completed ADA form for preauthorization.
 - Diagnostic records (a copy of the original study models/OrthoCad equivalent and/or a complete set of diagnostic photographs and/or a panorex film). Progress records will be accepted if original records are not available. Documentation should demonstrate qualifying criteria for severe handicapping malocclusion.

CHANGES THAT DO NOT HAVE TO BE SUBMITTED FOR CONTINUATION OF CARE PREAUTHORIZATION

- *Changes between treating providers that are affiliated with the same group practice and changes between different affiliated practice locations. To ensure timely payment, please make sure that any claim is submitted with the correct Group(Billing) and Provider NPI information.*
- *Initiation of Comprehensive Orthodontic Treatment after completion of Interceptive or Limited Orthodontic Treatment (Phased treatment). Please submit a prior-authorization (with any required).*

APPENDIX B

Covered Benefits (See Exhibits)

This section identifies covered benefits, provides specific criteria for coverage and defines individual age and benefit limitations for HIP members. Providers with benefit questions should contact DentaQuest's Customer Service department directly at:

Anthem: HIP and Hoosier Healthwise 866-408-6131 and Hoosier Care Connect 844-284-1797

Dental offices are not allowed to charge members for missed appointments. MCE members are to be allowed the same access to dental treatment, as any other patient in the dental practice.

DentaQuest recognizes tooth letters "A" through "T" for primary teeth and tooth numbers "1" to "32" for permanent teeth. Supernumerary teeth should be designated by "AS through TS" for primary teeth and tooth numbers "51" to "82" for permanent teeth. These codes must be referenced in the patient's file for record retention and review. All dental services performed must be recorded in the patient record, which must be available as required by your Provider Agreement.

For reimbursement, DentaQuest providers should bill only per unique surface regardless of location. For example, when a dentist places separate fillings in both occlusal pits on an upper permanent first molar, the billing should state a one surface occlusal amalgam ADA code D2140. Furthermore, DentaQuest will reimburse for the total number of surfaces restored per tooth, per day; (e.g., a separate occlusal and buccal restoration on tooth 30 will be reimbursed as one OB two-surface restoration).

The DentaQuest claim system can only recognize dental services described using the current American Dental Association CDT code list or those as defined as a Covered Benefit. All other service codes not contained in the following tables will be rejected when submitted for payment. A complete, copy of the CDT book can be purchased from the American Dental Association at the following address:

**American Dental Association
211 East Chicago Avenue
Chicago, IL 60611
[800-947-4746]**

Furthermore, DentaQuest subscribes to the definition of services performed as described in the CDT manual.

The benefit tables (Exhibits) are all inclusive for covered services. Each category of service is contained in a separate table and lists:

1. The ADA approved service code to submit when billing
2. Brief description of the covered service
3. any age limits imposed on coverage
4. A description of documentation, in addition to a completed ADA claim form, that must be submitted when a claim or request for prior authorization is submitted
5. An indicator of whether or not the service is subject to prior authorization, any other applicable benefit limitations

**Exhibit A Benefits Covered for
HIP Basic and HPE: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Plus NCP Medicaid

**Exhibit C Benefits Covered for
HIP State Plans Plus, HIP State Basic, HIP Basic Pregnancy, HIP Plus Pregnancy: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Basic Pregnancy Medicaid

**Exhibit C Benefits Covered for
HIP State Plans Plus, HIP State Basic, HIP Basic Pregnancy, HIP Plus Pregnancy: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Prosthodontics, removable							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5110	complete denture - maxillary	19 and older		Yes	No	One of (D5110, D5130) per 72 Month(s) Per patient. For replacement of dentures or partials less than 6 years old medical necessity must be established	pre-operative x-ray(s) or digital photograph

Anthem IN BCBS Basic Pregnancy Medicaid

**Exhibit C Benefits Covered for
HIP State Plans Plus, HIP State Basic, HIP Basic Pregnancy, HIP Plus Pregnancy: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Maxillofacial Prosthetics							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5951	feeding aid	19 - 20		No	No	One of (D5951) per 1 Lifetime Per patient. Used on an interim basis, this prosthesis achieves separation of the oral and nasal cavities in infants born with wide clefts necessitating delayed closure.	
D5952	speech aid prosthesis, pediatric	19 - 20		No	No	One of (D5952) per 1 Lifetime Per patient. A temporary or interim prosthesis used to close a defect in the hard and/or soft palate. It may replace tissue lost due to developmental or surgical alterations. It is necessary for the production of intelligible speech.	
D5993	Maintenance and cleaning of a maxillofacial prosthesis (extra or intraoral) other than required adjustments.	19 and older	Per Arch (01, 02, LA, UA)	No	No	One of (D5993) per 12 Month(s) Per patient.	
D5999	unspecified maxillofacial prosthesis, by report	19 and older		No	Yes

Anthem IN BCBS Basic Pregnancy Medicaid

**Exhibit C Benefits Covered for
HIP State Plans Plus, HIP State Basic, HIP Basic Pregnancy, HIP Plus Pregnancy: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

General Anesthesia and IV Sedation will be received on a case by case basis for medical necessity.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Adjunctive General Services							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D9120	fixed partial denture sectioning	19 and older		No	No

Anthem IN BCBS Basic Pregnancy Medicaid

**Exhibit D Benefits Covered for
Hoosier Care Connect Children: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Medicaid Hoosier Care Connect Child

**Exhibit D Benefits Covered for
Hoosier Care Connect Children: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Medicaid Hoosier Care Connect Child

**Exhibit D Benefits Covered for
Hoosier Care Connect Children: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Medicaid Hoosier Care Connect Child

**Exhibit D Benefits Covered for
Hoosier Care Connect Children: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Maxillofacial Prosthetics							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5951	feeding aid	0 - 20		No	No	One of (D5951) per 1 Lifetime Per patient. Used on an interim basis, this prosthesis achieves separation of the oral and nasal cavities in infants born with wide clefts necessitating delayed closure.	
D5952	speech aid prosthesis, pediatric	0 - 20		No	No	One of (D5952) per 1 Lifetime Per patient. A temporary or interim prosthesis used to close a defect in the hard and/or soft palate. It may replace tissue lost due to developmental or surgical alterations. It is necessary for the production of intelligible speech.	
D5993	Maintenance and cleaning of a maxillofacial prosthesis (extra or intraoral) other than required adjustments.	0-20	Per Arch (01, 02, LA, UA)	No	No	One of (D5993) per 12 Month(s) Per patient.	
D5999	unspecified maxillofacial prosthesis, by report	0-20		No	Yes

Anthem IN BCBS Medicaid Hoosier Care Connect Child

**Exhibit E Benefits Covered for
Hoosier Care Connect Adults: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Medicaid Hoosier Care Connect Adult

**Exhibit E Benefits Covered for
Hoosier Care Connect Adults: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

D4355	full mouth debridement to enable a comprehensive periodontal evaluation and diagnosis on a subsequent visit	21 and older		Yes	No	One of (D4355) per 36 Month(s) Per patient. Only one of D4355 allowed per date of service. Not billable in conjunction with D1110, D4341, D4342. Not to be paid within 12 months of D0150.	pre-op x-ray(s), perio charting
D4910	periodontal maintenance procedures	21 and older		No	No	One of (D4910) per 12 Month(s) Per patient. Not covered within 6 months of D4341 or D4342.	

Anthem IN BCBS Medicaid Hoosier Care Connect Adult

**Exhibit E Benefits Covered for
Hoosier Care Connect Adults: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Prosthodontics, removable							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5110	complete denture - maxillary	21 and older		Yes	No	One of (D5110, D5130) per 72 Month(s) Per patient. For replacement of dentures or partials less than 6 years old medical necessity must be established	pre-operative x-ray(s) or digital photograph

Anthem IN BCBS Medicaid Hoosier Care Connect Adult

**Exhibit E Benefits Covered for
Hoosier Care Connect Adults: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Anthem IN BCBS Medicaid Hoosier Care Connect Adult

**Exhibit E Benefits Covered for
Hoosier Care Connect Adults: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

General Anesthesia and IV Sedation will be received on a case by case basis for medical necessity.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

**Exhibit F Benefits Covered for
Hoosier Healthwise Package A - Children: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Maxillofacial Prosthetics							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5951	feeding aid	0 - 20		No	No	One of (D5951) per 1 Lifetime Per patient. Used on an interim basis, this prosthesis achieves separation of the oral and nasal cavities in infants born with wide clefts necessitating delayed closure.	
D5952	speech aid prosthesis, pediatric	0 - 18		No	No	One of (D5952) per 1 Lifetime Per patient. A temporary or interim prosthesis used to close a defect in the hard and/or soft palate. It may replace tissue lost due to developmental or surgical alterations. It is necessary for the production of intelligible speech.	
D5993	Maintenance and cleaning of a maxillofacial prosthesis (extra or intraoral) other than required adjustments.	0-20	Per Arch (01, 02, LA, UA)	No	No	One of (D5993) per 12 Month(s) Per patient.	
D5999	unspecified maxillofacial prosthesis, by report	0-20		No	Yes

Hoosier Healthwise Package A - Children: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia and routine post-operative care.

The extraction of asymptomatic impacted teeth is not a covered benefit. Symptomatic conditions would include pain and/or infection or demonstrated malocclusion causing a shifting of existing dentition.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

**Exhibit G Benefits Covered for
Hoosier Healthwise Package A - Adults: Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

**Exhibit G Benefits Covered for
Hoosier Healthwise Package A - Adults: Anthem**

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

**Exhibit H Benefits Covered for
Hoosier Healthwise Package C - Children (CHIP): Anthem**

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Payment is made for restorative services based on the number of surfaces restored, not on the number of restorations per surface, or per tooth, per day. A restoration is considered a two or more surface restoration only when two or more actual tooth surfaces are involved, whether they are connected or not.

Tooth preparation, all adhesives (including amalgam and resin bonding agents), acid etching, copalite, liners, bases and curing and pulp capping are included as part of the restoration.

Restoration of deciduous teeth when exfoliation is reasonably imminent will not be routinely reimbursable.

As a condition for payment, it may be necessary to submit, upon request, radiographs and other information to support the appropriateness and necessity of these restorations.

When restorations involving multiple surfaces are requested or performed, that are outside the usual anatomical expectation, the allowance is limited to that of a one-surface restoration. Any fee charged in excess of the allowance for the one-surface restoration is **DISALLOWED**.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

In cases where a root canal filling does not meet DentaQuest's general criteria treatment standards, DentaQuest can require the procedure to be redone at no additional cost.

A pulpotomy, pulpectomy or palliative treatment is not to be billed in conjunction with a root canal treatment on the same date. Filling material not accepted by the Federal Food and Drug Administration (FDA) (e.g., Sargenti filling material) is not covered.

Complete root canal therapy includes all appointments necessary to complete treatment, temporary fillings, filling & obturation of canals, intra-operative and fill radiographs.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

A preformed denture with teeth already mounted forming a denture module is not a covered service.

Complete and/or partial dentures will be approved only when existing prostheses are not serviceable or cannot be relined or rebased. Reline or rebase of an existing prosthesis will not be reimbursed when such procedures are performed in addition to a new prosthesis for the same arch.

Partial dentures will be approved only when they are required to alleviate a serious health condition including one that affects employability. Eight natural or prosthetic teeth in occlusion (four maxillary and four mandibular teeth in functional contact with each other) are generally considered adequate for functional purposes. Missing anterior teeth do not qualify for approval if eight natural or prosthetic posterior teeth are in occlusion.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Diagnostic services include the oral examinations, and selected radiographs, needed to assess the oral health, diagnose oral pathology, and develop an adequate treatment plan for the member's oral health.

Reimbursement for some or multiple radiographs of the same tooth or area may be denied if DentaQuest determines the number to be redundant, excessive or not in keeping with the federal guidelines relating to radiation exposure. The maximum amount paid for individual radiographs taken on the same day will be limited to the allowance for a full mouth series.

Reimbursement for radiographs is limited to when required for proper treatment and/or diagnosis.

DentaQuest utilizes the guidelines published by the Department of Health and Human Services Center for Devices and Radiological Health. However, please consult the following benefit tables for benefit limitations.

All radiographs must be of diagnostic quality, properly mounted, dated and identified with the member's name. Radiographs not of diagnostic quality will not be reimbursed for, or if already paid for, DentaQuest will recoup the funds previously paid.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Maxillofacial Prosthetics							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
D5951	feeding aid	0-18		No	No	One of (D5951) per 1 Lifetime Per patient. Used on an interim basis, this prosthesis achieves separation of the oral and nasal cavities in infants born with wide clefts necessitating delayed closure.

It is DentaQuest's expectation that the Primary Care Dentist (PCD) provide basic and advanced dental services to their patients. However, DentaQuest understands that certain procedures may fall beyond the scope or comfort level of the PCD. To avoid the need for a cumbersome referral process, DentaQuest is leaving the entire process in the hands of the providers. However, DentaQuest's Utilization Management department will continually monitor provider referral patterns to assure appropriate placement of patients and allocation of funds.

Reimbursement includes local anesthesia.

General Anesthesia and IV Sedation will be received on a case by case basis for medical necessity.

Any reimbursement already made for an inadequate service may be recouped after the DentaQuest Consultant reviews the circumstances.

Adjunctive General Services							
Code	Description	Age Limitation	Teeth Covered	Pre-payment Review Required	Prior Authorization Required	Benefit Limitations	Documentation Required
