

# It's time!

This year we're rolling out the brand new, minty fresh provider portal.

## Designed using feedback directly from dental teams like yours!

- ✓ Automate previously manual processes
- ✓ Up-to-date, detailed information all in one place
- ✓ Simplified workflow
- ✓ Real-time coverage estimates
- ✓ Eligibility status
- ✓ Innovative features just a few clicks away!

Yes, you'll have to re-register, but we promise it's easy! And to help you get going, we'll have a bunch of training materials available in the portal's resource center.

**No more searching through endless tabs**

**No more unnecessary calls**

**No more waiting games**

**No more toothaches :)**

Don't just take our word for it...  
10/10 dentists recommend our portal!

"It just did all the paperwork for me! You just saved me 10 minutes of work PER CLAIM by having it auto populated."

"All I have to do is type in a claim number and it's ALL THERE."

"More informational. This will save phone calls for my team. Definitely a time-saver."

"This will be one of the best portal experiences we have."

"I wish other companies did the same thing—getting feedback from actual users. This is great!"
