

Ask your child's dentist about sealants today!

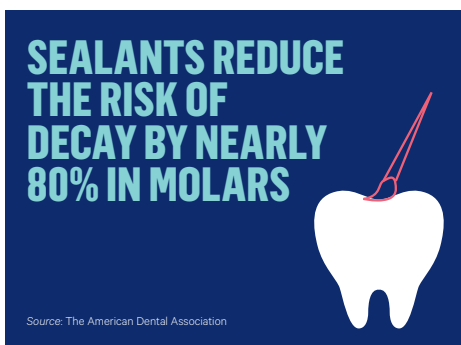

- Sealants keep back teeth (molars) safe. They protect your teeth from germs and food. These can lower the risk of tooth decay (cavities) for children.
- Sealants are a covered benefit of CHP+ and Health First Colorado (Colorado's Medicaid Program). *Members may have a co-pay.
- It's recommended that all kids have sealants placed on their back teeth as soon as they start to come in. Usually around the age of 5-8 years old.
- Sealants are fast and easy to apply.

DentaQuest administers dental care benefits to children and adults enrolled in Health First Colorado and CHP+. If you need help finding a dental provider or have questions about your dental benefits, please call:

Health First Colorado Member Services Line: 1-855-225-1729, TTY 711
CHP+ Member Services Line: 1-888-307-6561, TTY 711
